**REPUBLIC OF TURKEY PRIME MINISTRY
TURKISH COOPERATION AND CORDINATION AGENCY**

DECEMBER 2016

**By reaching out to all over the world,
we, as Turkey, will give a helping
hand as much as we can to whoever
in need of assistance**

Recep Tayyip ERDOĞAN
President of the Republic of Turkey

The World's “**MOST GENEROUS**” Country: **TURKEY**

Turkey was the Second Largest Donor of Humanitarian Assistance in the World in 2015 with a Total Assistance of \$3.2 Billion, and the Largest Donor of Humanitarian Assistance in Terms of the Ratio of Assistance to National Income with a Ratio of 0.37.

Strengthening Turkey Growing TIKA

The number of TIKA overseas country offices, which was 12 in 2002, rose to 56 by 2016.

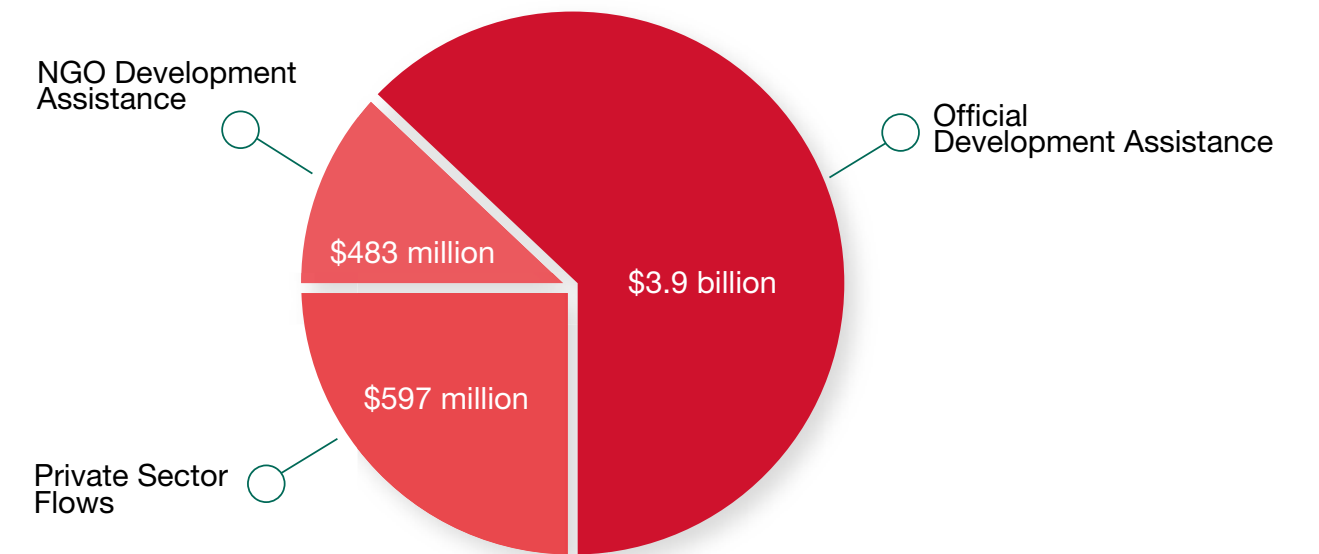

Tens of Thousands of Projects in 150 Countries

The number of projects and activities carried out between 1992 and 2002: 2,240

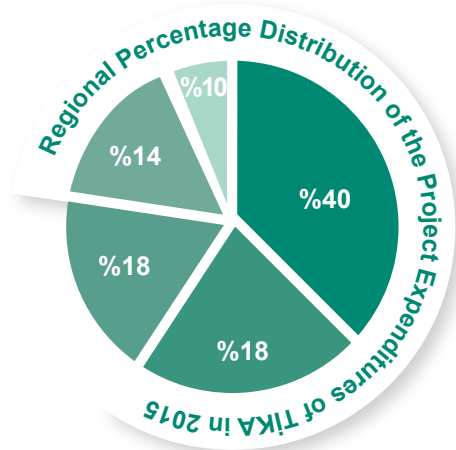

The number of projects and activities carried out between 2002 and 2015: 16,760 in 140 countries
The average number of TIKa projects in the last two years is above 1,700.

We Had a Record Increase in Development Assistance

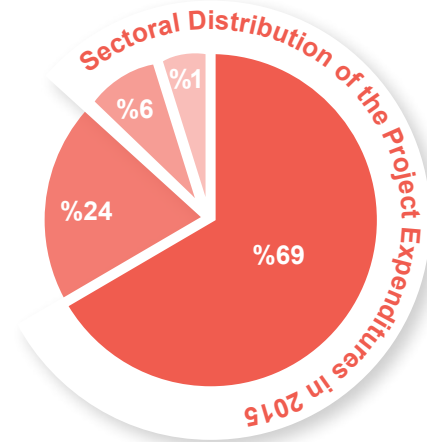

“Total development assistance” provided by Turkey in 2015 (including the Official, NGOs and the Private Sector Abroad) was \$5.1 billion.

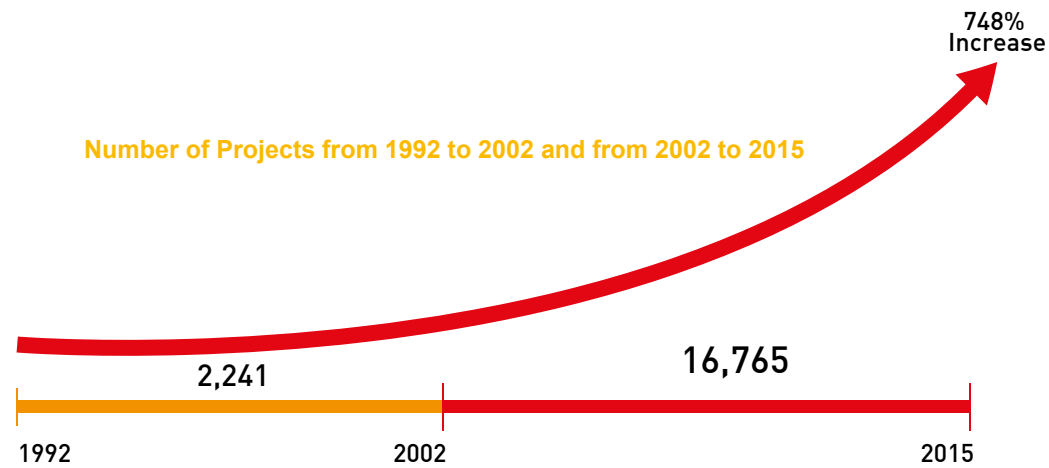

The Number of Projects Shows How Actively TİKA Works

Africa: 40%, Caucasus and Central Asia: 18%, Balkans and Eastern Europe: 18%, Middle East: 14%, Other: 10%

Social Infrastructure and Services: 69%, Production Sector: 24%, Economic Infrastructure and Services: 6%, Other Sectors: 1%

748% Increase 2002 – 2015: 16,765 / 1992 – 2002: 2,241

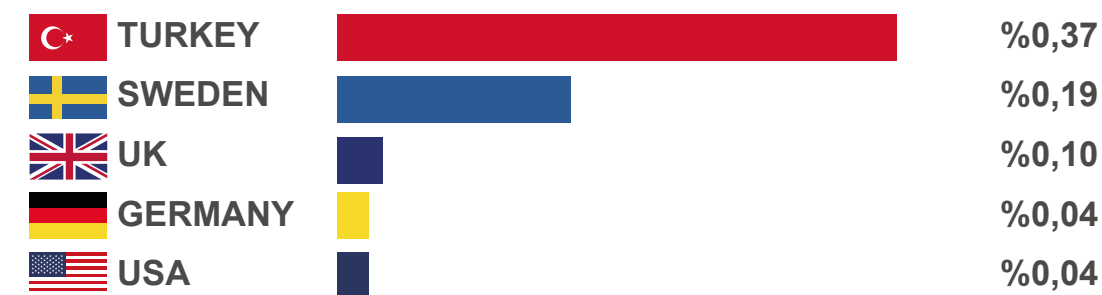

We Are the Most Generous Country in Terms of Humanitarian Assistance

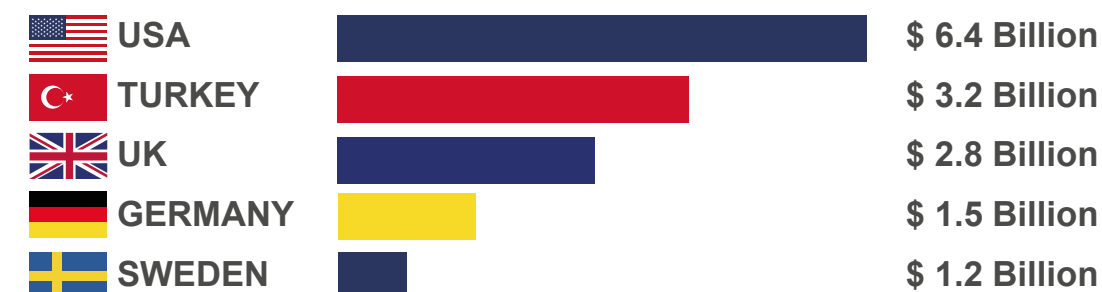

According to the Global Humanitarian Assistance Report 2016, Turkey was the most generous country in the world that provided the largest humanitarian assistance in terms of its ratio to national income.

In 2015, Turkey was the second largest donor of humanitarian assistance in 2015 with an aid of \$3.2 billion following the U.S.

A New Approach: Turkish Type of Development Assistance Model

- We act sticking to the principle of sincerity.
- We work with a transparent management approach without any secret agenda.
- We take into account the needs and priorities of partner countries.
- We respect our partners and their values adopting a way of communication based on mutual interaction and learning.
- Without expecting visibility, we adopt a rational and sustainable project understanding that directly benefits the people.

With its current Turkish Type of Development Assistance Model, TİKA offers a new approach among similar development assistance providers.

Why is TİKA Different?

Capability to Operate in Crisis Regions and Countries with High Risk Potential, High Operational Capability in Different Geographies, Solution- and Result-Oriented Project and Activity Strategy, Sociologically and Psychologically Positive Perception by Local People, Effective Communication with Stakeholders (NGOs and Public Institutions) in Project Regions, Capability and Capacity to Move to Action All Public Institutions and Agencies, Universities, Local Administrations and Non-Governmental Organizations of Turkey for Projects and Activities

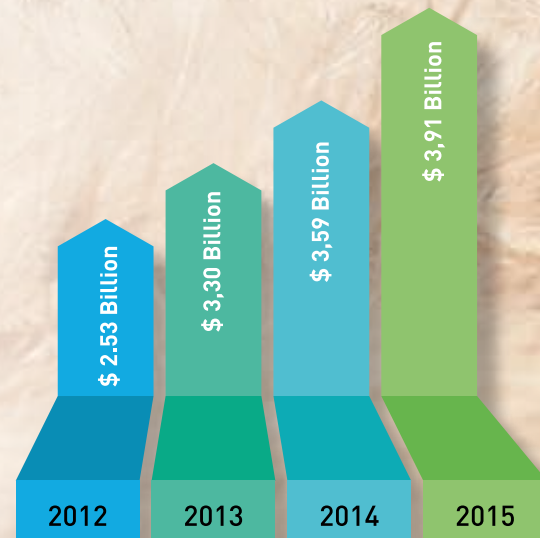

We Achieved a Record Increase in Development Assistance

Turkey has broken a record increasing its official development assistance (foreign assistance provided by all governmental agencies) 50 times in the last 12 years.

Turkey increased its official development assistance from \$76 million in 2003 to \$3.91 billion in 2015.

Turkey's Official Development Assistance by Years

We Are Engaged in Activities Concerning Human Life From Birth to Death

As TİKA, we implement projects in a very broad area from education, health and agriculture to economic development, promotion of cultural heritage projects and training programs.

By reflecting the knowledge and experience of all public institutions and agencies, universities, local administrations and non-governmental organizations to the world, we lay the foundations of a new humane diplomacy.

Briefly, we are engaged in activities concerning human life from birth to death. The number of hospitals / health centers constructed, renovated and equipped in the last 5 years is 300. The number of health care personnel provided with training is above 3,000.

Approximately 750 million people in the world do not have access to clean drinking water. We drilled more than 1,100 water wells between 2003 and 2014. More than 37,000 specialists from various occupational groups, including security, judicial, health care, education and diplomacy, were provided with training in the capacity building programs of TİKA between 2003 and 2014.

Additionally, more than 9,000 expert trainers from various public institutions and universities of Turkey were assigned for the on-site training programs. We deliver vocational courses for the disadvantaged people of the society, including women, the handicapped and low-income people, with a sustainable and versatile point of view towards development.

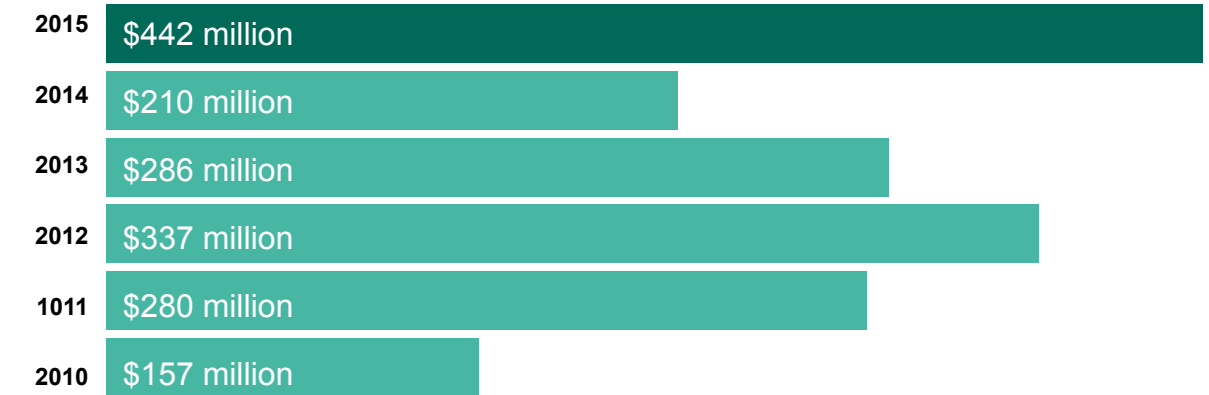

We keep our word to the least developed countries

Our President Recep Tayyip Erdoğan promised to provide the least developed countries with an annual support of \$200 million in the Least Developed Countries Summit of the UN in 2011.

The total assistance provided by Turkey between 2010-2015 to the Least Developed Countries (LDC) whose population constitute 10 percent of the world population rose to \$1.7 billion.

Turkish Assistance to the Least Developed Countries

TIKA constructed new roads (34km) in Mogadishu

We Support Agricultural Development

Specialized training courses and implementation projects are developed with a view to ensuring that countries become self-sufficient in agricultural production and modern agricultural techniques are applied by skilled labor. In the last 9 years, more than 3,000 experts benefited from the training programs implemented in the agricultural, forestry and fishing sectors with the cooperation of the Ministry of Food, Agriculture and Livestock and TİKA.

A greenhouse was set up for the first time in Somalia within the agricultural school established in Mogadishu in cooperation with

the Humanitarian Relief Foundation (IHH) in 2013. Crops such as melon and aubergine were cultivated for the first time, and training on the use of drip irrigation systems and technical apiculture was delivered for the first time. With the school transformed into a Faculty of Agriculture within Zamzam University as of 2015, contributions are made to ensure propagation of modern agricultural techniques in Somalia.

We Support NGOs as Our Solution Partners

450 projects and activities were carried out in more than 70 countries with the cooperation of TİKA and NGOs between 2012-2015. The number of cooperating stakeholders increases each year, and activities are carried out with 80 domestic NGOs in average annually. Only in the sub-Saharan countries, more than 300 thousand people were subjected to medical checkup within the scope of the health care projects carried out in cooperation with NGOs.

We Build Hospitals and Train Doctors

The number of hospitals/health centers constructed, renovated and equipped in the last 5 years is 300.
The number of health care personnel provided with training is above 3,000.

We Provide Thousands of People with Water

Approximately 750 million people in the world do not have access to clean drinking water. We drilled more than 1,100 water wells between 2003 and 2014.

We Protect Common Historical and Cultural Heritage

TİKA has been engaged in strategy development and restoration activities concerning the cultural assets abroad since 2008.

We Set Up Modern Facilities

The world's most modern and hygienic bread factory was set up by TİKA in Bishkek, the capital of Kyrgyzstan.

The factory with a daily production capacity of 30,000 breads also serves as one of the most important production facilities of Kyrgyzstan with its production area as well as administrative units, meeting hall, laboratories, flour warehouse and numerous sections. It provides free bread to public facilities that render social services, such as schools, kindergartens, hospitals, orphanages and nursing homes.

We Develop Our Cultural Ties and Build Cultural Relations

We contribute to the strengthening of the historical relations of the countries-notably in the historically related region-by organizing panel discussions, conferences, symposiums, scientific workshops , other cultural activities and exhibitions

- Cultural Centers in the Balkans
- Turkish Film Festival in Baku and Almaty
- Common Geography Cultural Meetings
- Turkey and Georgia Bektashi Culture and Minstrels Symposium
- Conference of Transformation of Development Assistance from Past to Present

We Follow the International Development Agenda

The role of Turkey in international development cooperation has recently seen remarkable changes. Turkey not only has turned into a donor country from a recipient country, but also has become a country that makes a difference with its approach to the international development cooperation and has unique methods and approaches. TİKA, as one of the major actors of this change, builds effective relations and develops common projects with leading international development cooperation institutions in the world.

We Ensure That Women Take Part Strongly in Social Life

More than 6 million children lost their lives in the last 1 year. 60 million people, most of whom are children and women, are homeless due to wars, violence and natural disasters. It is the women and children who are affected the most by all these unfavorable incidents in the world.

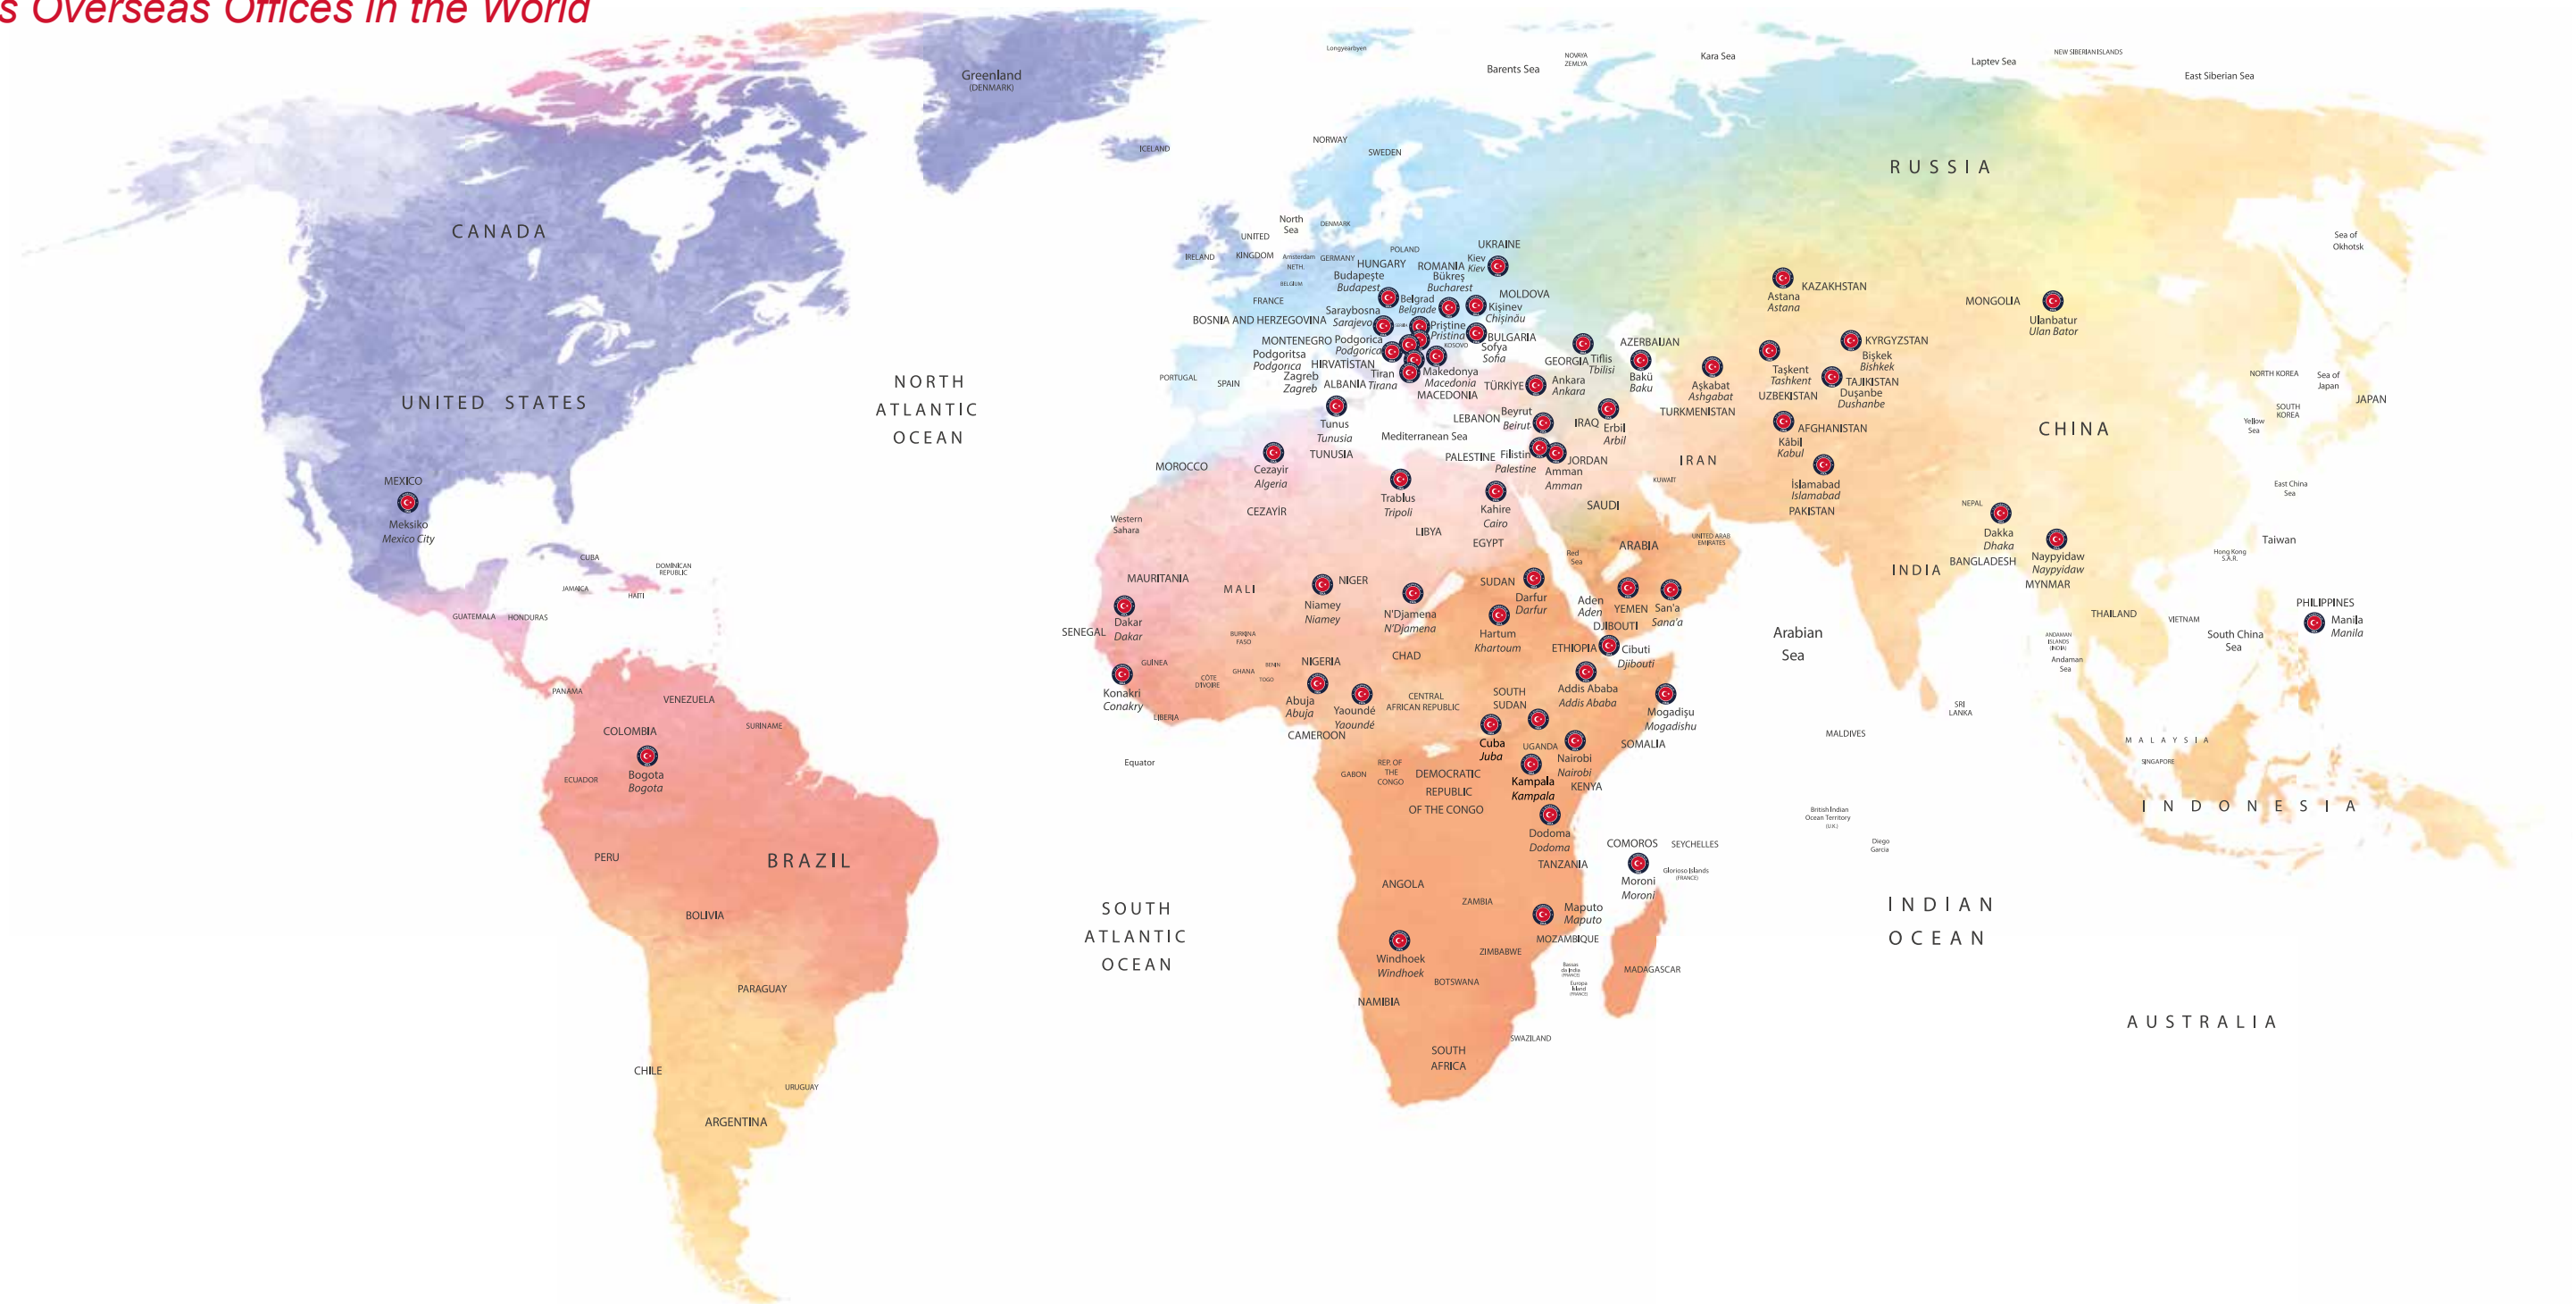

With its projects, TIKA stands by women and children who have huge difficulties even in accessing their basic needs and are among the disadvantaged groups of the society.

We Stand by Victims of Terror

International terrorism, one of the major problems of the world today, targets at peace and stability of countries. The acts of terrorism and violence result in the death of thousands of people and bring together huge human crises. TIKA carries out projects in many countries, including Sri Lanka, Somalia, Niger and Iraq, in an attempt to provide relief to the victims of terror at a global level.
