Building bridges of friendship, sharing the experience and knowledge of our country in good faith and focusing on local needs and priorities, TIKA has built a unique model of development cooperation befitting the rich civilizational background of our country.
Created to enable our country to respond to the new opportunities and risks, integration and globalization processes emerging in the post-Cold War era, TIKA has already become a source of pride in development cooperation for Turkey, the ever rising star. TIKA also plays an important role in developing a new diplomacy approach built upon multi-culturalism, driven by our cultural, historical and civilizational background, and pioneering the philosophy of “soft power” as opposed to the uni-centric, one-actor traditional diplomacy.

TIKA aims to replace the set of outdated paradigmatic concepts such as ‘developed,’ ‘less developed,’ ‘underdeveloped’ and so on, with a human oriented approach rooted in our moral heritage that strives to touch real human lives. Building bridges of friendship, sharing the experience and knowledge of our country in good faith and focusing on local needs and priorities, unique model of development cooperation befitting the civilizational background of our country.

Restructured swiftly in line with the “zeitgeist” and the ongoing mentality transformation in our country over the past 12 years, TIKA has stood out as a global organization and a most effective instrument of the proactive Turkish foreign policy. Our projects are undertaken by 50 Program Coordination Offices and also in 150 countries ranging from Central Asia and the Balkans to the Middle East, Africa, Latin America and the Pacific Islands and operate without discriminating on the basis of race, language, religion or sect.

The Turkish Assistance Model has been borne out of the human-oriented projects designed in good faith to respond to the needs of requesting countries and communities. In 2014 as well, TIKA continued its works across the world, implementing many projects in various sectors in countries of varying levels of development. In addition, TIKA encouraged other public entities, private sector and civil society in Turkey to take more active roles in development cooperation, and accordingly coordinated their efforts.

Acting on the maxim of “pleasing the minds and winning the hearts of others”, TIKA worked tirelessly and dynamically across a vast geography to duly discharge its duties and enhance its institutional capacity. I heartily congratulate our TIKA on the occasion of releasing this Annual Report for 2014, and wish that its services continue fruitfully.

Assoc.Prof.Dr. Yağış AKDOĞAN
Deputy Prime Minister
TIKA acts on the vision set out by the President of the Republic for: “Turkey to reach out and assist, to the extent possible, whomever is in distress in any part of the world”.

In a world where security-oriented policies tend to prevail, and such notions as joint development and social justice are in deep crisis, TIKA has managed, through its transparent and constructive political vision, to reach out to the remotest points in the world in addition to its natural cultural geography. In line with Turkey’s strong economic growth and stability in the last 13 years, TIKA has become a most important instrument of Turkey’s foreign policy.

Turkey has embraced as a political priority the principle to stand by the oppressed and the deprived who have been disadvantaged by the global economic and political system, looked down upon through such conceptual descriptions as less developed, underdeveloped etc., and ignored as people and condemned to poverty. Projects and actions implemented through TIKA have proven that poverty is not the inevitable fate, that it is possible to build
a co-habitable world and develop
together through generous and sin-
cere sharing. Indeed it is appropri-
ate to claim that the development
assistance provided by TIKA also
reflects the collective conscience of
humanity.

In this context, TIKA leads and coor-
dinates a rich multitude of projects
contributing to economic develop-
ment and employment in a wide
range of sectors including educa-
tion, health, water and sanitation,
agriculture, livestock, vocational
training and so on. By mobilizing
the capacities of the public and pri-
ivate sectors and civil society in our
country, we have focused on local
priorities to strengthen peace and
prosperity in the countries of action.

Since its founding in 1992, TIKA has
implemented important projects
to assist the development efforts
of Turkic Republics. In this context,
South and Central Asia ranked at the
top by regional distribution of TIKA
assistance in 2014, with Azerbaijan,
Kyrgyzstan, Kazakhstan and Turkme-
nistan being the core beneficiaries
of TIKA action in the region. Ca-
pacity building programs continue
under TIKA’s coordination in Turkic
Republics which became independ-
ent in our ancestral lands, i.e. the
Central Asia. The ever-growing inte-
rest in such diverse programmes is
a clear indication of success. TIKA
continues to assist economic de-
velopment of sister countries through
occupational skills courses in Azer-
baijan, and training programs for
enhancing education, health and
economic infrastructure in Kyrgyzs-
tan, Kazakhstan and Turkmenistan.

Bosnia-Herzegovina, Macedonia,
Kosovo and Albania were the top
recipients of assistance in the Bal-
kans and Eastern Europe in 2014.
TIKA cooperates with Balkan coun-
tries and peoples who have been
involved in tragic wars, mass migra-
tions and suffering in the last cen-
tury, enabling these groups to com-
municate more effectively with each
other. In addition to the restoration
of historic works in the region, TIKA
is also firmly engaged in promoting
economic development and stren-
gthening relations with the Balkans
to establish security and stability in
the region.

TIKA continued in 2014 its assistan-
ces works in the Middle East where
political instability and internal con-
licts continue. Palestine was the top
beneficiary of TIKA’s cooperation
projects totaling at 31 million USD
covering education, health, clean
water and restoration.

Our country’s relations with African
countries have grown stronger sin-
cerely by 2005 which Turkey declared
the “African Year”. In line with this new
reorientation of Turkish foreign poli-
cy, TIKA opened new offices across
Africa to improve its geographic
access and augment the number of
projects. In 2014, Africa received 44
million USD of Turkish assistance.
Particularly, our new program coordi-
nation offices in Tunisia and Algeria
assisted in projects contributing to
their political and economic stability.
Furthermore, projects were initiated
to restore sites of Turkish cultural he-
ritage to preserve Turkey’s own his-
torical legacy in these countries.

Turkey continued efforts unabatedly
in 2014 to rehabilitate and recons-
truct the regions of the world most
affected by humanitarian crises and
natural disasters. TIKA was not in-
different to, and assumed a leading
role in calling the international com-
unity to provide assistance to, the
Muslims of Arakan in Myanmar who
were victims of violence; the victims
who lost their homes in and around
Kirkuk, Arbil, Dohuk and environs
as a result of armed conflicts in the
region; the victims of recent severe
floods in Pakistan and Bosnia-Her-
zegovina; and the human tragedy in
Gaza where more than 2,000 people
lost their lives as a result of attacks.
Acting on the instructions of our
President of the Republic, adhering
to the maxim of “Turkey to reach
out and assist, to the extent pos-
sible, whomever is in distress in any
part of the world”, TIKA assisted in
2014 such distant countries as Bhut-
tan, Indonesia, Kiribati, Malaysia,
Palau, Solomon Islands, Tuvalu and
Vanuatu and strove to build bridges
with these nations.

As the outward face of Turkey, and
a most significant actor in internati-
onal cooperation and development
assistance, TIKA’s work in other
countries, relying on its dynamic
and competent staff, continues to
be a source of pride and a pillar for
our nation’s reputation.

Building on a background of 25 ye-
ars, TIKA today fields what we may
call the “Turkish Assistance Model”
based primarily on sincerity and em-
pathy with its counterparts, trans-
parent governance and collective
wisdom. Beyond prioritizing visi-
ability, the model rules out any didactic
and imperative language; instead, it
embraces a communicative model
of mutual learning, and offers flexib-
le and speedy solutions on the basis
of needs and priorities of the recipi-
ent communities.

I hereby submit our deepest gratitu-
de to our President of the Republic,
our Prime Minister, and Asc.Prof.
Dr. Yalçın AKDOĞAN, the Deputy
Prime Minister in charge of TIKA,
whose aegis we have always enjo-
yed, all former Ministers and former
staff of TIKA; and congratulate all
TIKAs staff members who work self-
lessly to implement and report on
our projects.

Serdar ÇAM, Ph.D.
President of TIKA
TIKA’S FOUNDING OBJECTIVE AND MANDATE

The Turkish Cooperation and Coordination Agency (TIKA) was founded in 1992 by the Decree-Law No. 480 as a technical assistance agency titled the Turkish Cooperation and Development Administration within the Ministry of Foreign Affairs in light of necessities arising from the disintegration of the Communist Bloc and the Soviet Union.

Placed later under a State Ministry, TIKA’s mandate and working principles were prescribed in Article 1 of the Law No. 4668 published in the Official Gazette on 12 May 2001 issue 24400 as “to lay down the principles and procedures concerning the foundation, organization and mandate of the Turkish Cooperation and Development Administration as a legal entity under the Prime Ministry to assist the development of developing countries and communities and other countries including primarily the Turkic-speaking republics and relative communities and Turkey’s neighbors; develop economic, commercial, technical, social, cultural and educational cooperation with such countries through projects and programmes; and execute the assistance action.” TIKA was reorganized by the Decree-Law No. 656 of 24 October 2011 to improve efficiency in technical cooperation and coordination. Accordingly, TIKA was founded as a special budget public legal entity under the Prime Ministry to develop economic, commercial, technical, social, cultural and educational relations through projects, programmes and activities with designated states and communities, carry out contributions, assistance, and related processes and perform other tasks as prescribed by the laws. The said Decree-Law entered into force upon publication in the Official Gazette of 2 November 2011 issue 28103. TIKA performs the following functions:

- Strengthen economic, commercial, technical, social, cultural and educational relations with the designated countries and communities through projects and activities with a focus on mutual development; prepare cooperation programs and projects in line with the needs of the said countries and communities; make relevant arrangements and follow-up on projects; ensure coordination in implementation of such projects and programs.

- Prepare the economic infrastructural instruments and assistance programmes that
• Coordinate where necessary the provision of humanitarian and technical assistance to other countries and communities.

• Implement programmes, projects and activities in cooperation with the public institutions, universities, non-governmental organizations and private sector in beneficiary countries; provide specialized assistance where necessary.

• Prepare or facilitate and implement projects and programmes aimed at strengthening cooperation in public management, law, education, culture, and other social fields in the designated countries and communities; provide scholarships and similar assistance to public officials and other individuals from such countries for education and training in Turkey.

• Implement cultural cooperation programmes abroad and cooperate with centres engaging with Turkish culture where necessary.

• Ensure implementation, technical coordination and monitoring, prepare inventories and reports on development assistance and other other foreign aid efforts by undertaken by Turkey.

• Engage in social and cultural projects and activities aimed at preserving common cultural and social heritage and values in other countries, eliminating prejudices between societies and strengthening the dialogue between civilizations.

• Participate in international cooperation within TİKA’s area of activity; ensure coordination; and implement joint projects with international organizations and their representatives where necessary.

• In addition to the designated countries, provide technical contributions and assistance to countries with which we share a common history, geography, social and cultural ties regardless of their level of development; and evaluate requests of technical assistance and joint projects from all countries wishing to work with TİKA.
The organization of the Turkish Cooperation and Coordination Agency consists of service units, standing committees and commissions, advisory and auxiliary units.

TIKA’s service units include:
• Department of Central Asia and Caucasus
• Department of Balkans and East Europe
• Department of Middle East and Africa
• Department of East and South Asia, Pacific and Latin America
• Department of External Relations and Partnerships
• Legal Advisor’s Office
• Department of Strategy Development
• Department of Human Resources and Support Services

The five regional departments of Central Asia and the Caucasus, the Balkans and Eastern Europe, the Middle East and Africa, the East and South Asia and the Pacific and Latin America were established in order to strengthen economic, commercial, technical, social, cultural and educational relations with designated countries and communities through projects and activities with a focus on mutual development; prepare and facilitate cooperation programs and projects in line with the needs of the said countries and communities; make the relevant arrangements for and monitor and coordinate the implementation of such projects and programs.

The Department of External Relations and Partnerships is intended as a coordinating unit among the regional departments for projects and activities concerning more than one country or region. This unit is also responsible for designing and implementing development assistance, technical assistance and humanitarian aid in partnership with NGOs and voluntary organizations.

The Legal Advisor’s Office performs functions prescribed by the Decree-Law No. 659 of 26 September 2011 on Conduct of Legal Services in Administrations with General and Special Budget, and similar tasks assigned by the President.

The Department of Strategy Development discharges the functions assigned to strategy development and financial service units by the Law No. 5018 of 10 December 2003 on Public Fiscal Administration and Control, Article 15 of the Law No. 5436 of 22 December 2005 and other legislation; and it performs tasks necessary to respond effectively, appropriately and in a timely fashion to requests filed to TIKA under Law No. 4982 of 9 October 2003 on the Right to Information; and similar tasks assigned by the President.

The Department of Human Resources and Support Service manages TIKA’s human resources; performs all actions relating to procurement of construction works, purchasing, rental, repair maintenance, transport and other similar administrative and financial services; provides and supervises general paperwork and documentation services in the context of correspondence, information processing and e-government applications; performs civil defense and mobilization planning and implementation; undertakes the installation, operation and repair and maintenance of an IT infrastructure for agency units and representations abroad and performs services related thereto; ensures coordination and cooperation between IT projects and the relevant units; develops or procures appropriate software in line with progress in IT technologies.

OVERVIEW OF 2014 ACTIVITIES

The Turkish economy grew markedly in the past decade, maintaining its upward trend despite the global crisis that started in the United States in 2008 and rapidly spread across the world. Turkey’s economic momentum continued in 2014 resulting in a Gross National Income of 823 billion USD.

Turkey continued to share its growing economic wealth with under-developed and developing countries. Accordingly, official Turkish assistance and private assistance flows totaled 6,403 million USD in 2014. This figure represented an increase of 47.3% from the previous year which saw a total of 4,347 million USD. Of this 2014 total, 3,591 million USD represented Turkish Official Development Assistance, marking an increase of 8.6% on the previous year.

Calculated as Official Development Assistance (ODA) divided by Gross National Income, i.e. the ODA/GNI ratio, Turkey’s Millennium Goal achievement level was 0.41% in 2014 – well above the 0.29% average of member countries of the OECD Development Assistance Committee (DAC). The top donors as ranked by the said ratio were Sweden, Luxembourg, Norway, Denmark, United Kingdom, Netherlands, Finland, Switzerland and Belgium with Turkey ranking 10th.

TIKA is without doubt a critical instrument of Turkey’s international development assistance efforts. The agency implemented cooperation projects totaling at 191.8 million USD in 2014, 185.8 million USD of which was deployed as bilateral assistance. This is further broken down as 102.44 million USD in program assistance, 53.44 million in technical cooperation, 2.22 million USD in developmental food aid, 3.8 million USD of assistance to national NGOs, 3.7 million USD in humanitarian aid and 18 million USD in administrative costs with the rest categorized as “other”.
Since its founding in 1992, TIKA has implemented important projects to assist the development efforts of Turkic Republics. In this context, South and Central Asia ranked at the top by regional distribution of TIKA assistance in 2014 at 53.03 million USD and a share of 28.60% in overall TIKA-mediated assistance. Azerbaijan, Kyrgyzstan, Kazakhstan and Turkmenistan were the top beneficiaries of TIKA action in the Central Asia and Caucasus region in 2014.

Many training programs were implemented to improve education, health and economic infrastructure. In addition to training programs, various other projects were initiated to respond both to the material and cultural needs of people in these nations. For instance, the construction of the Bishkek Public Bread Factory was undertaken to provide for the bread needs of people in Kyrgyzstan. In addition, the technical equipment for the drinking water supply system in Kenesh village was renovated. The equipment which is also used by people from many other villages, provides clean drinking water to a large number of citizens. In Kazakhstan, milk collection centers were built at villages near the city of Kostanay in order to improve the economic well-being of the people there. In Turkmenistan, efforts were initiated to locate the tomb of Sultan Alparslan, who opened the gates of Anatolia for the Turks at the Battle of Manzikert. Another project sought to preserve the genetic purity of the world-renowned Akhal-Teke horses.

Through projects and programs in various sectors, Azerbaijan was the top beneficiary of TIKA assistance in the Central Asia and Caucasus region. The vocational courses themed “I Have a Vocation” and the project titled “Cooperation Network of Active Women and Girls” aimed to increase employment for youth and women. The “Welcome Baby Newborn Health Training” was implemented to contribute to reducing infant mortality rates and improving mother and child health. Also implemented was the Project for Dairy Cattle Husbandry Development and Melioration in agriculture and livestock sector.

The total assistance in 2014 to the Balkans and Eastern Europe was 39.4 million USD, making up 21.25% of total TIKA assistance. Bosnia-Herzegovina, Macedonia, Kosovo and Albania were the top recipients of assistance in the Balkans and Eastern Europe in 2014. Many projects were implemented ranging from education and health, to the preservation of cultural heritage, and facilitation of cultural activities. The construction of Hamdija Kreševljaković Primary School and II. Srednja Škola in Bosnia-Herzegovina, and the renovation of village schools in Macedonia and Mustafa Kemal Atatürk School in Vlorë, Albania represent only a few examples of TIKA’s work in education. TIKA also engaged in the restoration of many Ottoman architecture in Kosovo. TIKA also developed various projects in countries to revive cultural life. For example, assistance was provided to many conferences organized in Bosnia-Herzegovina, and to the renovation of the house where Alija Izetbegović the Wise King was born. Assistance was also provided...
GENERAL OVERVIEW OF 2014

Turkish cultural heritage in Palestine.

Our country’s relations with African countries have become stronger since 2005 which Turkey declared the “African Year”. In line with this new reorientation of Turkish foreign policy, TIKA opened new offices across Africa to improve its geographic access and augment its number of projects. TIKA’s assistance to African projects in 2014 totaled 44.24 million USD, which accounted for 23.86% of the TIKA budget. This made Africa the second ranking recipient region after South and Central Asia. Of note were TIKA’s new program coordination offices in Tunisia and Algeria which contributed to the political and economic stability of these nations. Furthermore, projects were initiated to rehabilitate the works of our ancestors to preserve Turkish historical and cultural heritage in these countries. For example, repair and renovations were started on the Ketchaoua Mosque in Algeria in 2014 to preserve our common cultural heritage.

Overall, the top beneficiaries of TIKA cooperation projects in 2014 were Palestine at 31.22 million USD, Afghanistan at 24.70 million USD, Bosnia-Herzegovina at 14.2 million USD, Somalia at 8.3 million USD, Mongolia at 7.4 million USD, Sudan at 7.2 million USD, Kyrgyzstan at 6.95 million USD and Yemen at 5.92 million USD.

to many areas – particularly those engaged in fruit growing and apiculture – to contribute to economic development. In addition, assistance was provided in many areas, including particularly fruit growing, apiculture to contribute to economic development.

TIKA continued in 2014 its assistance works in the Middle East where political instability and internal conflicts continued. Total assistance to the Middle East in 2014 was 39.1 million USD, amounting to 21.1% of total TIKA assistance. Assistance to Palestine in particular continued unabatedly in 2014, totaling 31.22 million USD and making Palestine the top beneficiary of TIKA cooperation projects in the region. The projects ranged from education, health, clean water, transport and restoration. To improve educational capacity in Palestine, TIKA undertook the construction of Al-Khalil (Hebron) Turkish School for 550 students as well and worked to restore the Reshadiye Girls School which was originally built in 1911 by the Ottoman Sultan Mehmed Reshad. Street lighting was installed in many cities, and water wells drilled for many districts in Gaza. In addition, the Sultan Abdülhamid II Public Fountain, which was destroyed in 1914, was restored to preserve Turkish cultural heritage in Palestine.

Overall, the top beneficiaries of TIKA cooperation projects in 2014 were Palestine at 31.22 million USD, Afghanistan at 24.70 million USD, Bosnia-Herzegovina at 14.2 million USD, Somalia at 8.3 million USD, Mongolia at 7.4 million USD, Sudan at 7.2 million USD, Kyrgyzstan at 6.95 million USD and Yemen at 5.92 million USD.
TIKA not only catered to the needs of peoples in our adjacent geography, but also endeavored to respond to the needs of peoples in removed geographies. Acting on the maxim that Turkey is “to reach out and assist, to the extent possible, whomever is in distress in any part of the world”, in 2014 TIKA assisted such distant countries as Bhutan, Indonesia, Kiribati, Malaysia, Palau, Solomon Islands, Tuvalu and Vanuatu and strived to build bridges with these peoples. In 2014, TIKA development assistance to the Far East totaled 7.74 million USD (4.15% of TIKA budget), 1.89 million (1.02%) USD to countries in the Americas and 0.4 million USD (0.02%) to Oceania.

TIKA continued to implement projects in various sectors in 2014 across countries. The sectoral distribution of assistance expenditures and percentage shares (in parentheses) of TIKA’s budget were as follows: 121.97 million USD (72.46%) for social infrastructure and services; 22.76 million USD (13.52) economic infrastructure and services; 7.9 million USD (4.70%) for production sectors and 15.71 million USD (9.32%) on multi-sector initiatives.

Under the social infrastructure and services category, the health sub-sector ranked first at 44.41 million USD, followed by cultural cooperation and restoration projects at 30.73 million USD; strengthening educational infrastructure at 25.96 million USD; strengthening administrative and civil infrastructure at 13.11 million USD; and water and sanitation at 2.82 million USD.

TIKA initiated many projects in such fields as education, health, water and sanitation, agriculture, strengthening administrative and civil infrastructure in order to contribute to the development of partner countries. In 2012, 621 students were granted scholarships, and 1095 people were provided training in various fields. In health, 860 specialists were trained, and large quantities of medical equipment were donated.TIKA also assisted in providing access to clean water and constructed a total of 130 water wells.
CENTRAL ASIA AND CAUCASUS

TIKA continues to enhance develop economic, commercial, technical, social, cultural and educational cooperation with Turkic-speaking republics and related communities.

**Renovation of Baku Turkish Anatolian High School**

TIKA has been providing assistance for many years to Baku Turkish Anatolian High School, which operates under The Turkish Ministry of National Education. The necessary actions are taken in order to carry out current renovation operations and aid in the solution of technical problems. In this regard, plumbing, decontamination, sewage and insulation works in Baku Turkish Anatolian High School are completed by TIKA. Also, consultancy services are provided in order to conduct monitoring and evaluation.

**Educated Child Ideal Society Project**

A four-storey building, which was granted to the Social Association for Youth Support by a philanthropic family, is serving as a preschool in Bine town which is mostly populated by Karabakh immigrant families. TIKA has provided interior equipment so that the preschool, with a capacity for 100 children, and which is widely supported by philanthropists in Azerbaijan, can serve in full capacity.

**Foundation of Turkish World Research Centre at Caspian University**

The Turkish World Research Centre was founded as part of the International Relations Department at Caspian University, which is among the leading universities in Azerbaijan. An education program named “Turkish Studies Program” was developed in order to ensure the center is active and sustainable. The academic activity series in the center was initiated by a seminar held in November 2014.

**"I Have a Vocation" Vocational Courses**

The Society for Friendship and Cultural Relations with Turkic Speaking States is providing three month long vocational training courses to increase the employability of those aged 18-35 who lack adequate skills. TIKA provided equipment and furniture assistance to the project, where computer and sewing-embroidery courses are given. The project is considered to contribute to the employment of youth.

**Cooperation Network of Active Women and Girls**

The Islamic Conference for Dialogue and Cooperation Youth Forum Regional Centre of Eurasia operating under the Organization of Islamic Cooperation started a project in 2013 called “Cooperation Network of Active Women and Girls”.

TIKA provided the equipment required for computerized accounting, carpet weaving, tailoring and vocational training courses given under the project. There were 463 women trainees who attended vocational courses and 100 women trainees who attended education improvement courses between 2013 and 2014.

**Academic activity series in the centre was started with a seminar held in November 2014.**
Each Season is a Light Project
TIKA launched Each Season is a Light Project with the collaboration of the Azerbaijan Ministry of Education and the Eurasia International Research Institute Social Association in order to inform youth about historical figures representing the shared cultural values of Azerbaijan and Turkey.

Access of Central Asia Countries to Meteorological Satellite Data
With the collaboration of the General Directorate of Meteorology of Turkey and the European Organization for the Exploitation of Meteorological Satellites (EUMETSAT), Access of Central Asia Countries to Meteorological Satellite Data Project was carried out for Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan and Uzbekistan. Two experts from each country were trained in Turkey.

Then, from 13-18 April 2014, two experts from the General Directorate of Meteorology of Turkey delivered training on the installation and use of equipment in Turkmenistan.

Earthquake Engineering and Disaster Management Training
With the collaboration of JICA, AFAD and ITU, a training program called, “Earthquake Engineering and Disaster Management” was held in Istanbul from 4-16 May 2014. TİKA assisted one specialist from the Turkmenistan Ministry of Construction Seismology Department to attend the program.

Cooperation with Turkmenistan National Institute of Manuscripts
TİKA, in collaboration with the Konya Regional Directorate of Manuscripts of the Turkish Manuscripts Institute under the Turkish Ministry of Culture and the National Institute of Manuscripts of Turkmenistan Academy of Sciences, published three books in the context of events for the 290th birth anniversary of Mahtumkul Firaki. The first book was published under the title Diwan (Compendium) of Mahtumkul and edited by Prof. Dr. Abdurrahman Güzel. In the book, the poems of Mahtumkul are interpreted in current Turkmen and translated to Turkish. The second book was titled Mahtumkul Memorial and included studies carried out in Turkey on Mahtumkul Firaki. The third was a new edition of the 19th Century Turkmen Poet Mollanefes’ book in which Mahtumkul’s poems were reproduced. The said book was introduced to the participants in an international conference held from 14-15 May 2014 in Turkmenistan.

A Traffic Control Training Program was held from 8-19 September 2014 in Turkmenistan.
Conservation of Genetic Purity of Akhal-Teke Horses

TIKA granted 1,000 DNA test kits to the Turkmen Horses State Union Molecular and Genetic Laboratory. Five Turkmen specialists were also trained in Turkey from 24-30 May in horse farm administration methods such as breeding and the birth of foals. Four veterinarians from the Turkmen Horses State Union also attended a second training program held in Istanbul from 18-23 August 2014.

Brood Stock Cattle Farming

The Brood Stock Cattle Farming Project was initiated in Turkmenistan with the collaboration of the Turkmen Goods State Union. The aims were to improve brood stock cattle farming in the country, and to disseminate livestock husbandry with high milk productivity thus directly contributing to the production of milk and milk products and reducing foreign dependence by increasing the production of food of animal origin. Thus, three specialists from TIKA and the T.R. Ministry of Food, Agriculture and Livestock paid a study visit to Turkmenistan from 26-31 May 2014.

Quarantining Akhal-Teke Horses in Turkey

The T.R. Ministry of Food, Agriculture and Livestock assisted the Turkmenistan Akhal-Teke Horse-riding Society’s Horseback Games Group in the quarantining process in Turkey so that they could attend the International Festival held in Latina province of Italy from 16-20 October 2014. The Kalkınış Horseback Games Group, which was assisted to attend the said festival, won the Grand-Prix award in the International Circus Festival.

Cultivation of Sunflower and Corn Varieties Suitable for Seed for Animal Feed

The Turkmen Goods State Union requested TIKA to provide assistance for the cultivation of feed plants. Thus, some sunflower and corn varieties suitable for seed were planted as a trial run. At the end of this process, dissemination of the seeds, as suitable to the climatic conditions of the country, is planned.

Equipment to Support Centre for the Disabled

The Support Centre for the Disabled, which was founded with the purpose of assisting people with physical and mental disabilities, requested equipment assistance from TIKA. The center was thus granted with five wheel chairs, one electric treadmill, 110 sports uniforms and footwear, a computer, a printer, a fax machine and a UPS.

International Relations Institute

As part of the Project of Cooperation with the International Relations Institute, 3,000 domestic and foreign information resources were granted and electronic equipment and materials required for the library were supplied.

Establishing a Library in International Relations Institute

TIKA decided to establish an international relations library as part of the Project of Cooperation with the International Relations Institute, which was initiated in 2011. Thus, approximately 3,000 domestic and foreign resources on international relations, as well as the necessary electronic equipment and material for the library was granted.

Assistance to Turkmenistan Culture Week Events

Exhibitions, concerts, theatrical and poetry reading events, including pieces from both Turkmen and foreign artists, were organized for the International Art Festival which was held in celebration of Culture and Art Workers Day in Daşoğuz province from 23-29 June 2014. TIKA assisted artists from African countries including Kenya and Tunisia to attend the second International Art Festival for the first time.

International Comparison Program Cooperation in Statistics Project

Assistance to Turkmenistan to join the International Comparison Program Cooperation in Statistics Project, which was originally meant to run from 2008-2011, was extended to 2014 with the cooperation of TIKA and the Turkmenistan State Committee of Statistics. Five specialists were thus assisted to attend a training held from 16-20 July 2014. It was aimed at ensuring Turkmenistan’s joining of the International Comparison Program.

Brood Stock Cattle Farming

The Brood Stock Cattle Farming Project was initiated in Turkmenistan with the collaboration of the Turkmen Goods State Union. The aims were to improve brood stock cattle farming in the country, and to disseminate livestock husbandry with high milk productivity thus directly contributing to the production of milk and milk products and reducing foreign dependence by increasing the production of food of animal origin. Thus, three specialists from TIKA and the T.R. Ministry of Food, Agriculture and Livestock paid a study visit to Turkmenistan from 26-31 May 2014.

Quarantining Akhal-Teke Horses in Turkey

The T.R. Ministry of Food, Agriculture and Livestock assisted the Turkmenistan Akhal-Teke Horse-riding Society’s Horseback Games Group in the quarantining process in Turkey so that they could attend the International Festival held in Latina province of Italy from 16-20 October 2014. The Kalkınış Horseback Games Group, which was assisted to attend the said festival, won the Grand-Prix award in the International Circus Festival.

Cultivation of Sunflower and Corn Varieties Suitable for Seed for Animal Feed

The Turkmen Goods State Union requested TIKA to provide assistance for the cultivation of feed plants. Thus, some sunflower and corn varieties suitable for seed were planted as a trial run. At the end of this process, dissemination of the seeds, as suitable to the climatic conditions of the country, is planned.

Conservation of Genetic Purity of Akhal-Teke Horses

To preserve the genetic purity of Akhal-Teke horses and for the improvement of veterinary services in the country, TIKA granted 1,000 DNA test kits to the Turkmen Horses State Union Molecular and Genetic Laboratory. Five Turkmen specialists were also trained in Turkey from 24-30 May in horse farm administration methods such as breeding and the birth of foals. Four veterinarians from the Turkmen Horses State Union also attended a second training program held in Istanbul from 18-23 August 2014.

Construction and Equipment of Hamdija Kreševljaković Primary School
From 2008, the administration of Hamdija Kreševljaković Primary School began taking steps to increase the number of classrooms in the school. TIKA completed the classroom construction which was started by the Islamic Development Bank and Gradačac Municipality but had been left incomplete. TIKA also provided the necessary educational materials.

Completing Construction of the II. Srednja Škola School
Officials from the II. Srednja Škola School in the city of Cazin where nearly 1000 students attend school requested assistance from TIKA to complete school construction. Construction of the school, which is the only vocational high school in the city, was completed in July 2014.

Culture and Education Complex for Goražde
In cooperation with the Department of Religious Affairs, Keçiören Municipality and Şahinbey Municipality, TIKA built a culture and education complex in Goražde for the use of the public. The complex is built on an area of 9,260 square meters with 31 rooms and a large terrace. All equipment, materials and technical equipment needed for the complex, where the Mufti’s office was also to be located, were provided by TIKA. This assistance provided an institution to Goražde where people of all ages, but youth especially, can benefit from cultural and educational activities.

Computer Labs for 100 Schools Across Bosnia-Herzegovina
TIKA initiated the 100 Schools in Sarajevo Canton Project for the modernization of schools across Bosnia-Herzegovina in 2011. TIKA equipped the interiors of 100 schools. Following the success of the project, the Equipment for 100 Schools Project was then initiated in 2014 in Bosnia-Herzegovina. Under this project, equipment, materials and computer labs were provided and installed in 100 schools in the cities of Vitez, Travnik, Jajce, Srebrenica, Tuzla, Bilećina, Banja Luka and Maglaj.

Assistance for Materials for Sarajevo Higher Education Dormitories
The Sarajevo Student Centre provides shelter to nearly 2000 students every year. It is the largest institution in the country of its kind. Upon request from the center, worn materials used in affiliated dormitories were replaced with new ones. Materials including 300 sets of bed linen and 600 cover sets were also provided.

Increasing the Capacity of the Laundry Room of Banja Luka Pre-School Education and Training Centre
Officials from Banja Luka Pre-School Education and Training Centre, with which 20 pre-schools are affiliated, requested assistance on the grounds that their laundry room was unable to meet the needs of all students. In order to increase the physical capacity of the laundry room, TIKA provided two industrial sized washing machines, one industrial sized dryer and a cylinder ironing machine.

Technical Equipment for Srebrenica Students’ Union
The Srebrenica Students’ Union carries out work for the protection of the rights of people living within the borders of the Republika Srpska who returned to their homelands after the war. TIKA provided 30 laptop computers and 30 scanners in assistance to the Union. Thus, technical infrastructure was established for an active network among the members as a result of this project.

Furniture and Technical Equipment for Sarajevo University Department of Turkish Language and Literature
TIKA provided furniture and technical equipment to the Sarajevo University Department of Turkish Language and Literature.
Renovation of Goražde Canton Hospital and Construction of an Additional Building
The administration of the Goražde Canton Hospital, originally founded as a war hospital in 1992, requested assistance from TIKA for the construction of an additional building. TIKA constructed the additional building in March 2014, while also renovating the existing building. The hospital serves an estimated 30,000 patients.

Urodynamics Device for Sarajevo University Clinic Centre
The Sarajevo University Clinic Centre Pediatric Surgery Department requested a urodynamics device from TIKA in order to improve accuracy of its urology diagnoses. A urodynamics device was procured for the center in June 2014. As a result of this project, urodynamic check-ups of child urology patients can be carried out in a healthier way.

Renovation and Equipment of the Trim Laboratory and Physical Therapy Centre
The Fojnica-Drin Centre for persons with mental disabilities.

Renovation of the State Archives of Bosnia-Herzegovina
As a result of a fire outbreak in February 2014 in the State Archives, many documents, especially files from the Astro-Hungarian Period were damaged. Due to this, the Bosnia-Herzegovina Commission for the Preservation of National Monuments requested assistance from TIKA to enhance the physical conditions of the archives and to tighten security. Damaged store rooms were rehabilitated and also a movable shelving system was installed in the store rooms.

Enhancing the Technical Capacity of the Mothers of Srebrenica and Žepa Movement Association
In honor of Srebrenica Memorial Day, TIKA donated computers, printers, photocopiers, fax machines and cameras to the Mothers of Srebrenica and Žepa Movement Association which was founded by the mothers who were the victims of war between 1992-1995.

Assistance to the Green Crescent Bosnian Society
The Green Crescent Bosnian Society was founded with assistance from the Turkish Yeşilay (the Green Crescent) in order to fight against the habits of smoking, alcohol and drug use. The Foundation aims to eliminate these harmful habits through various activities. In assistance to their efforts, TIKA provided them with computers, printers, projectors and office furniture.

The technical capacity of the Mothers of Srebrenica and Žepa Movement Association was enhanced.
TIKA provided assistance to various activities relating to the Sarajevo Culture Conferences.

Assistance for Cultural Activities in Bosnia-Herzegovina
TIKA provided assistance for many cultural activities relating to the Sarajevo Culture Conferences. One of these events was a presentation titled, “Islamic Universe or Muslim World? Comparative Civilization Analyses”, delivered by journalist Akif Emre in May 2014. In the second session of the conference series, author Süleyman Gündüz delivered a presentation called, “Is a New World War Possible?”. In the last session of the conference series, Prof. Dr. Bilal Eryılmaz delivered a talk called, “Ethics in Public Administration”.

Foundation of a Museum in the Backyard of Živinice Cebari Mosque
The Cebari Mosque, founded in the 16th century, is the oldest mosque in the area. Officials from the Presidency of Bosnia-Herzegovina requested assistance from TIKA to establish a museum behind the mosque to house works from the Ottoman era. Construction was completed in September 2014.

Technical Equipment for Radio Bir
Officials from Radio Bir requested assistance for technical equipment from TIKA. In response, TIKA provided a UPS system, tele-reporters and computers were provided to the radio station.

Assistance for the Kültür Ajanda (Culture Agenda) Bosnia-Herzegovina Special Issue
The Aktüelya Press Board participated in celebrations organized for the 100th issue of the Haber Ajanda Dergisi (News Agenda Journal) with the publication of the Kültür Ajanda Dergisi (Culture Agenda Journal) Bosnia Special Issue. The aim of this special issue was to introduce the strengths and challenges experienced by Bosnia-Herzegovina to Turkey. TIKA contributed in the promotion of Bosnia-Herzegovina and the journal in Turkey.
Planting Raspberry Saplings in Rural Areas
In cooperation with the Zlatni Lily Foundation, which deals with all segments of society and operates across Bosnia-Herzegovina, the Raspberry Plantation and Creating Employment in Rural Areas Project was put into action. The project entailed planting 25,000 raspberry saplings, establishing irrigation systems for 25 acres of land, and providing twenty-five 500-liter water barrels and other necessary equipment. A total of 20 families benefited from this project targeting Zavidovići and Žepče regions which were affected by a flood disaster in May 2014.

Plantation of 400 Walnut Saplings on Bosnia-Herzegovina Foundation Land
The Plantation of Walnut Saplings Project was put into action with the aim of providing assistance to the General Directorate of Foundations which has limited funding. As a result, 400 walnut saplings were planted on land owned by the General Directorate of Foundations with the cooperation of the Islamic Union.

Enhancing the Capacities of Una Sana Canton Agriculture Institute
TIKA provided equipment assistance to the Agriculture Institute Laboratory in Una Sana Canton of Bosnia-Herzegovina. Thanks to this project, analyses of the trees and plants across Bosnia-Herzegovina can be carried out in a healthier manner and plant diseases diagnosed earlier. This will improve agricultural efficiency.

Plantation of Aronia Plant in Sanski Most Region
Officials of Terra Sana Economic Development and Employment Association, which operates based in Sanski Most, requested assistance from TIKA in cultivating the Aronia plant. TIKA provided 5000 saplings and an irrigation system for two hectares of land in order the assist in cultivation of the Aronia plant. It is planned that this project will provide employment for 15 families living in Sanski Most region.

Tractors, Harvesters, Corn Plantation Machines, Irrigation Machines and Ploughs for Bijeljina Islamic Union
The Mülkiye Islamic Union, operating in Bijeljina which is located on the fertile agricultural land of the Semberija Plains, requested technical equipment from TIKA for agricultural production on the 510 acres of foundation land in the region which has been opened for agriculture. Tractors, harvesters, corn plantation machines, irrigation machines and ploughs were donated to the Union. The aim of the project was to curb high levels of unemployment in the region and reduce outward migration.

Apiculture Assistance for Kaćuni and Željezno Polje Regions Damaged by Floods
The Kaćuni and Željezno Polje regions were severely damaged by the flood disaster which occurred in May 2014. The apiculture industry also suffered particularly great damage. TIKA distributed a total of 11,450 kilograms of sugar, 2,300 kilograms of flour and 150 packages of medicine to the beekeepers to help them recover from the unfortunate blow to their livelihoods.

Assistance for Fruit Juice and Molasses Production
Goražde region, located in the eastern part of Bosnia-Herzegovina produces a significant amount of high quality and healthy fruits. TIKA provided equipment to farmers for the production of juice from apples and pears, and molasses from the plums grown in the region. A total of 30 units of equipment required for juice and molasses production were provided to the farmers.
Renovation of the Birth House of Alija Izetbegović

Installation of Heating System and Wall Repair in Bogatic School
The Bogatic School, which has four classrooms and is located in Banovo Polje village of Bogatic, had not received comprehensive repair since 1952. The school also had no heating system. TIKA installed a heating system as well as repaired its interior and exterior walls.

Construction and Equipment of Aleksa Djilas Beco Primary School
The construction of Aleksa Djilas Beco Primary School, located in Draga village of Tutin, was initiated by the Pendik Municipality in 2004. The Tutin Municipality and the Least Developed Regions Sustainable Development Office assisted in its construction. TIKA completed the construction of the school, which has a capacity for 110 students. In cooperation with Pendik Municipality, the necessary equipment for the school was also provided.

Construction of Senica Kindergarten with 400 Student Capacity
The construction of Senica Kindergarten, which has a capacity for 400 students, was initiated in 2008 by Senica Municipality and completed by TIKA in 2014.

Fuel Assistance for the Islamic Education Institutions
Activities of the Islamic Education Institutions Madrasah, built by the Belgrade Mufti’s Office and with a capacity for 60 students, are carried out with contributions from relevant ministries and charities. Since the aid from these institutions were insufficient on their own, heating expenses of the madrasah were covered by TIKA in 2014.

Procurement of Textbooks in Bosnian
In contribution to education, Bosnian textbooks were provided for students in the 5th and 6th grades, as well as the 1st and 2nd grades of high school in the cities of Novi Pazar, Sjenica, Tutin and Prijepolje of Sandžak.
Sports Field for Merošina
The Merošina Municipality is one of the least developed of the 46 municipalities of Serbia and suffers great out-migration. TIKA built a sports field in Merošina to increase its attractiveness for young people.

Medical Equipment for Nephrology Department in Novi Pazar Hospital
TIKA provided the medical equipment required in the Nephrology Department of the Novi Pazar Hospital. TIKA also constructed an extension in the department.

Construction of Novi Pazar Raška Bridge
The Novi Pazar Metropolitan Municipality requested assistance for the construction of a bridge near a primary school with a double shift school day and where 800 students continue their education. In response, TIKA built the Raška Bridge which now eases the commute to and from the school for the students.

A sports field was built in Merošina to increase its attractiveness for young people.

The medical equipment required at Novi Pazar Hospital, Nephrology Department was provided.

Raška Bridge was built.
TIKA continues to provide assistance to Serbia across various sectors.

5,000 Cherry Saplings for the Farmers of Merošina
The disease of rotten root (rosellinia necatrix) severely damaged cherry saplings in Merošina where a majority of the community earns a livelihood from cherry production. Upon request from Merošina Municipality, 5,000 cherry saplings were delivered to the farmers. The aim is to prevent a decrease in production for the farmers.

Tunnel-Type Drying Facility with 500 Kilogram Capacity for Prokuplje Municipality
Upon request from Prokuplje Municipality, a tunnel-type drying facility, with a 500-kilogram capacity, was provided for use with agricultural produce cultivated in Southern Serbia. It is believed that with this assistance the aims of this project are two fold: for fruit to be dried in a hygienic manner and to increase the income levels of the farmers.

Cold Storage with 20 Ton Capacity for Kučevo Municipality
Although various types of fruit can be grown in Kučevo where the major means of livelihood is agriculture, there was previously no cold storage for preserving farmers’ produce. Thus, TIKA donated a cold storage with a capacity of 20 tons to Kučevo Municipality so that the shelf-lives of the farmers’ fruit and vegetables are extended, and their incomes increased.

Donation of 15 Drip-Type Irrigation Systems to Ljubovija Municipality
TIKA donated 15 drip-type irrigation systems to Ljubovija Municipality. The aim is to increase the efficiency of fruit and vegetable cultivation in Ljubovija.

Twenty Dairy Cows to Pešter
The number of animals in Pešter, located in Sandžak Region, has gradually decreased. Upon request from the Agriculture Union, 20 dairy cows were provided. The aim is to enhance the livelihoods of farmers by increasing their productive capacity.

Milking Machines to Brus Municipality
In order to increase productivity of high quality milk from dairy cows in Brus Municipality, 40 milking machines were provided by TIKA. The aim is to increase the income of farmers in the area.

Renovation of Lelechenko Kindergarten
Officials from Lelechenko Kindergarten requested assistance for the renovation of the building. TİKA renovated the school’s roof, repaired the entrance stairs and installed a shade. Lelechenko Kindergarten is located in the city of Berezan and provides services for 130 children.

Renovation of a Kindergarten in Kiev
The Directorate of Kindergarten No. 265, located in the historical Pechersk area of Kiev, requested assistance from TİKA to replace windows and repair roofs in the pre-school educational institution. A total of 115 windows and 7 exterior doors were replaced, and 3 new roofs were installed.

Renovation and Furnishing of Eastern Languages High School No. 1 of Kiev
The Eastern Languages High School No. 1 of Kiev is one of the best educational institutions in Kiev. Here, languages ranging from Arabic, Persian and Chinese are taught. The school administration requested assistance from TİKA for the renovation and furnishing of its Turcology rooms. TİKA provided technical equipment, a sound system, a smart board, blackboards and furniture to the school. In addition, two classrooms used for Turkish language courses were renovated.

Rehabilitation of the Intense Foreign Language Education Laboratory
TİKA carried out renovation work in the Intense Foreign Language Education Laboratory in the Philology Institute of Taras Shevchenko National University of Kiev. New simultaneous interpretation booths, equipped with modern equipment were installed, and furniture was provided.

Renewal of the Heating System of Boarding School No. 93 of Odessa
The Directorate of the General Education Boarding School No. 93 of Odessa requested assistance from TİKA for the renewal of the school’s heating system. Under the project, parts of the system were replaced and clogged radiators were cleaned to make the heating system functional again.

Exterior Thermal Insulation for Tarashcha Education Complex
Upon request from the Tarashcha District State Administration Department of Education Science, exterior thermal insulation was applied to the Tarashcha Education Complex. Windows of the gym were also renewed and three doors were replaced. With this assistance, the physical conditions of Tarashcha Education Complex were enhanced, and the building obtained a modern appearance.

Renovation of Nichiporivka Education Complex
The Kiev Yahotyn District State Administration Department of Education requested assistance for renewing the windows of the Nichiporivka Education Complex. Old windows and doors were removed, and a total of 119 windows and a door were replaced. An iron door was also installed in the backyard.

Assistance for Ismail Gaspıralı (Gasprinsky) Conference
The Department of Oriental Studies of the Ukrainian Academy of Sciences which conducts research on eastern languages, cultures and history, as well as the impact of Turkish language and culture on Ukraine, organized a memorial event for the 100th death anniversary of Ismail Gaspıralı (Gasprinsky). TİKA assisted with the organization of the conference.

Assistance was provided to the Ismail Gaspıralı (Gasprinsky) Conference.
Nikolaev Maternity Hospital

Assistance was provided for Nikolaev Maternity Hospital No. 3.

The Directorate of the Nikolaev Municipality Maternity Hospital No. 3 requested and received assistance from TIKA in replacing the electric lines of the hospital and for the procurement and assembly of a diesel generator in order to ensure uninterrupted hospital service during power cuts.

Ultrasound Device for the Children’s Clinic Hospital

The Children’s Clinic Hospital No. 8 of the Pediatrics Department of the National Medical University requested an ultrasound device for the diagnosis and follow-up of certain diseases. TIKA donated the ultrasound device to the hospital, which currently operates with a capacity of 120 beds.

Renovation and Furnishing of Svyatoshin Counseling and Diagnosis Centre

Upon request from the Svyatoshin Counseling and Diagnosis Centre located in Kiev, three windows and doors were replaced in renovation of administrative rooms. Electric lines and three lavatory combination faucets were also replaced. In addition, materials required by the center were provided by TIKA.

Equipment for Podil Counseling and Diagnosis Centre

The Podil Counseling and Diagnosis Centre requested assistance from TIKA in acquiring equipment needed for effective operations. Two pieces of modern laboratory equipment were purchased for the center.

Assistance for Summer Camp for Chernobyl Children

The Children of Chernobyl for Survival Foundation organized a two-week summer camp for Chernobyl child victims from 1-15 August 2014 near the coast of the Black Sea. TIKA supported the camp in which 50 children participated.

Podil Counseling and Diagnosis Centre

Equipment assistance was provided for the Podil counseling and diagnosis center.
Renovation of Water Well in Hristovka Village

The Ahıska Turks Society requested assistance for the renovation of the water wells used by Ahıska Turks living in Hristovka village. TIKA carried out the necessary work.

Construction materials, furniture, home appliances and technical equipment were provided to the Kiev Islamic Culture Centre.

Various Materials, Furniture and Equipment for Kiev Islamic Culture Centre

The Kiev Islamic Culture Centre, operating under the Kiev Mufti’s Office, requested assistance for construction materials, furniture and technical equipment. TIKA provided the necessary materials, including home appliances, to the center.

Equipment for Yuzhnoukrainsk Regional Centre for Social Services

Twenty pieces of specialised equipment were provided to the Yuzhnoukrainsk Regional Centre for Social Services, which aids the social adaptation of children with disabilities, including eliminating limitations for their movement.
Establishment of the Economic Modeling and Trade Policy Development Centre

The State Scientific Research Institute of Information and Economic Modeling affiliated with the Ministry of Economic Development and Trade of Ukraine requested technical assistance from TIKA to support the existing economic modeling potential of Ukraine. With donated software and equipment from TIKA, the Economic Modeling and Trade Policy Development Centre was established.

Renovation of the Gymnasium

The Kazanka Humanities Department Gymnasium’s windows were renewed and its roof was repaired.

Renovation of Kazanka Humanities Department Gymnasium

The Kazanka District State Administration requested assistance from TIKA for the renovation of the Kazanka Humanities Department Gymnasium. Windows of this gymnasium were renewed and its roof was repaired. In addition, a rainwater drainage system was installed on the gymnasium.

Construction of Al-Khalil (Hebron) Turkish School
In 2008, Ministries of National Education in Palestine and Turkey agreed on the construction of 10 schools in Palestine.

In this context, TIKA built the Al-Khalil (Hebron) Turkish School with 4 stories and 14 classrooms in 2014 on the area allocated by the Al-Khalil (Hebron) Municipality. In addition, all equipment needed at the school was provided. The school, which has a capacity of 550 students, is currently the most modern school of the city.

Computer Lab and Security Camera Installation at Shamili Refugee Camp Girls High School
Upon request, TIKA provided the technical equipment needed for the installation of a computer laboratory and security camera system at Shamili Refugee Camp High School for Girls which has 21 classrooms and a total of 557 students.

Renovation of Reshadiye School for Girls
Upon request from Nablus Municipality, TIKA renovated the interior and exterior of the school, carried out landscaping work and built a playground.

Oxygen Generator for El-Bireh Hospital
TIKA donated oxygen generator to the El-Bireh Hospital of the Red Crescent of Palestine.

The Second International Congress of Medical Graduates
Under the health projects carried out by TIKA, the Second International Congress of Medical Graduates was organized in Istanbul between 03-07 December 2014 in cooperation with the All Industrialists and Businessmen Association. TIKA assisted the participation of four doctors from Palestine to the congress.

Al-Khalil (Hebron) Turkish School was built in the land allocated by the Al-Khalil (Hebron) Municipality with 4 stories and 14 classrooms.

Palestine El-Bireh Hospital
An oxygen generator was donated to the Palestine El-Bireh Hospital.

Reshadiye School for Girls was renovated.
**TIKA ANNUAL REPORT 2014**

**Generator Donation to the Gaza Municipality**
TIKA donated four generators to the Gaza Municipality. Installation and assembly of the generators was also carried out by TIKA.

**Illumination of Streets in El-Nazlah Municipality**
Jabalia El-Nazlah Municipality requested assistance from TIKA for the illumination of roads and streets. The necessary road lighting materials were donated, and vehicle and pedestrian traffic became safer as a result.

**Preservation of Masjid-al-Aksa Archives**
In the Masjid-al-Aksa Archives, there are nearly 600 original manuscripts, court records (sharia records), certificates, edicts and letters from the period the Ottoman Empire ruled in Jerusalem. The Jerusalem Masjid-al-Aksa Foundation Administration requested assistance from TIKA for the preservation of these archives. In response, materials needed for the archives under the infrastructure reinforcement project were provided by TIKA. Moreover, a digital recorder, security and fire alarm systems were installed in the archive building.

**Water Wells in Various Parts of Gaza**
Access to drinkable fresh water is one of the most critical needs of the people of Gaza. To fulfill this need, Gaza Municipality requested assistance from TIKA. In response, TIKA dug seven water wells in various parts of Gaza. The generators needed to operate the water wells were also donated.

**Disinfection Supplies to the Gaza Coastal Municipalities Water Administration**
The Gaza Coastal Municipalities Water Administration requested assistance from TIKA to provide clean water to the people of Gaza. TIKA donated various chemical materials used for the disinfection of drinking water including 1,500 cubic meters of sodium-hypo chlorite, 30 tons of hydrochloric acid, 20 tons of caustic soda, 20 tons of anti-fouling agent, antiscalant sodium and 5 tons of sodium metabisulphide.

**Restoration and Landscaping of Sultan Abdulhamid II Public Fountain**
The Ministry of Tourism and Historical Works of Palestine requested assistance for the restoration of and landscaping around the Sultan Abdulhamid II Public Fountain in Gaza. The fountain, which had been nearly destroyed in 1914, was restored and opened for service with a ceremony. The people of Gaza, especially students from surrounding schools, now benefit from its presence.

**Industrial Automation Technologies Training**
A three-year project was initiated through cooperation between TIKA, the Ministry of National Education and JICA with the aim of sharing Turkish experience in the field of Industrial Automation Technologies across the Central Asian and Middle Eastern states. A needs analysis was conducted in 2011 with collaboration from TIKA and JICA, and target countries were assessed under two categories. The Industrial Automation Training was organized with the aim of popularizing Industrial Automation Technologies in Palestine. Five Palestinian experts participated in the training program which continued for a month.
Restoration of Jerusalem’s Old City Houses
It was observed that a majority of the houses in Jerusalem’s Old City were in dire condition. The Jerusalem Prosperity and Development Association, affiliated with the Jordan Religious Affairs Foundation, requested assistance from TIKA for the restoration of the houses. TIKA thus initiated a pilot project in the Kırmılı neighborhood near Masjid-al-Aksa. Interiors and exteriors of a total of five residences in the neighborhood were renewed and the buildings were reinforced.

Restoration of the Prophet Moses Place
Between 1260-1270, Mameluk Sultan Malik Baybars built a shrine and mosque on the site believed to be the grave of the prophet Moses. The shrine, mosque and other structures that have been added to the complex over the centuries are of great significance for Islamic history and culture.

The Ministry of Religious Affairs and Foundations of Palestine requested assistance from TIKA for the reinforcement and preservation of these buildings. The interior and exterior walls of buildings on the site were renovated while wooden guards were added to the upper walls thereby allowing the buildings to achieve their original appearance.

Rehabilitation of the Jerusalem Turkish Cultural Centre
TIKA renovated the interiors and exteriors of the Jerusalem Turkish Cultural Centre were renovated and landscaping work was carried out. Chandeliers needed for illumination, and cameras for security were also provided.

Nur-al-Huda Academic and Recitation Centre
The Jerusalem Zakat Committee requested assistance from TIKA for the enhancement of the building and services of the Nur-al-Huda Academic and Recitation Centre which works in affiliation with the Committee. Five container classrooms and educational materials were donated to the center. Thanks to the project, the capacity of the center has been enhanced allowing the students to pursue their education under improved conditions.

Participation of Athletes to the Open Taekwondo Championship
A total of 14 athletes from Palestine participated in the Turkey Open Taekwondo Tournament organized in Antalya between 28-30 November 2014. TIKA assisted the participation of the athletes in the championship.

Solar Energy Illumination for High Schools in the State of Homa Bay

Educational institutions in the State of Homa Bay were previously illuminated by kerosene oil lamps. Since gas oil is dangerous for health and cannot provide adequate illumination, TIKA developed a project based on solar energy. Three classrooms from each of the 56 high schools located across eight regions were illuminated with solar energy.

Assistance for Enhancing the Healthcare Infrastructure of Kenya

TIKA built a stabilized 3-meter wide road of 500 meters in length between the Ijara District Hospital and the Women’s Health Centre located in Ijara which is one of the least developed parts of the country with the aim of improving the maternal and infant healthcare services in Kenya. Previously a Prenatal Healthcare Centre was also built in the Ijara District Hospital.

Six Garbage Trucks and 400 Garbage Containers for the State of Garissa

TIKA donated six garbage trucks and 400 garbage containers to the Governorship of the State of Garissa.

Establishment of a Chicken Feed Production Facility

TIKA built a chicken feed production facility for developing small livestock husbandry in the Western part of Kenya where agricultural production is limited due to rough terrain. A total of 50,000 people were reached in the states of Narok, Kisii and Nyamira by the project which was put into practice under the West Kenya Rural Development Program and granted an award by the World Bank.

Three Fully Equipped Patient Transfer Ambulances for Lebanon
TIKA donated three fully equipped patient transfer ambulances to Lebanon.

Equipment and Medicine Assistance for the Islamic Medical Centre
TIKA provided medical equipment assistance to the Islamic Medical Centre operating in the Arsal region.

Food Aid for Lebanon
Turkmen community living in the Tripoli, Akkar and Bekaa districts of Lebanon, along with the Syrians taking shelter in the region due to the Syrian civil war, encounter serious challenges in acquiring basic food items. TIKA provided 860 food aid packages to 850 families in need.

Donation of 100 Medical Emergency Aid Doctor Kits to the Islamic Medical Centre
Most of the Syrian refugees who seek shelter in Lebanon live in camps in the Arsal area near the border. The Islamic Medical Centre operating in the region provides a range of services, but specializes in maternal and infant health. Upon request, 100 medical emergency aid kits were donated to the center.

Participation Assistance for April 23 Festivities for Lebanon Students
TIKA assisted the participation of 41 students from the Lebanon Ravdet El-Fayhaa School in the Kocaeli International April 23 Festivities.

Restoration of Hamidiye Public Fountain
The Hamidiye Public Fountain, which was built in Beirut on the 25th anniversary of the accession of Sultan Abdulhamid II to the throne in 1900, is one of the few remaining Ottoman structures in Beirut. TIKA initiated restoration work on the fountain for its preservation and for the benefit of future generations.

Restoration of Hamidiye Public Fountain
Restoration work was initiated on the Hamidiye Public Fountain, which is one of the few remaining Ottoman structures in Beirut.

Building a Computer Classroom at the Tunisia Iraqi School

Ten desktop computers, side equipment and a printer were donated to the International Tunisia Iraqi School.

Building a Computer Classroom at the Tunisia Iraqi School
Administration of the International Tunisia Iraqi School requested assistance from TIKA for building an equipped computer classroom at the school. Ten desktop computers, side equipment and a printer needed for the laboratory were donated.

Vocational Training Program for 15 High Judiciary Personnel from Tunisia
The Tunisian Justice Academy requested information sharing from TIKA about the Turkish judicial system and law. In this context, a vocational training seminar was organized through cooperation between TIKA and the Directorate of the Turkish Justice Academy for High Judiciary personnel from Tunisia. A total of 15 justices participated in the program organized in Ankara from 17-23 November 2014. In addition to the law and the judicial system, combatting corruption was also covered in the training.

Participation Assistance for International Conference on Occupational Safety and Health
The Ministry of Labor and Social Security organized the International Conference on Occupational Safety and Health in Istanbul between 5-7 May 2014. With the assistance of TIKA, a technical expert from the Ministry of Labor of Tunisia participated in the conference and delivered a presentation on the topic.

Tunisia-Turkey Development Cooperation Program
The Tunisia-Turkey Development Cooperation Agreement signed between Tunisia and Turkey has been in force for three years. Related to this, a vocational training seminar was organized for eight Tunisian experts at the Ministry of Development. Topics such as macro-economic modeling and economic analyses were addressed during the training which took place between 1-5 September 2014.

Local Governments Vocational Training Program
TIKA organized the Local Government Vocational Training and Study Program which took place in Istanbul and Rize from 21-29 September 2014 for 21 civil administrators comprising of governors and district governors working for the Ministry of Interior of Tunisia. The training was part of a joint project carried out between the Ministry of Interior of Turkey and the Ministry of Interior of Tunisia. Local government systems and practices in Turkey were introduced to the attendees.

Training and Study Program
The Local Government Vocational Training and Study Program was organized in Istanbul and Rize between 21-29 September 2014 for 21 civil administrators comprising of governors and district governors working for the Ministry of Interior of Tunisia.

Economic Modeling Training
Training on economic modeling was provided to Tunisian experts as part of the Tunisia-Turkey Development Cooperation program.
Service Vehicle for the Tataouine Regional Union for Persons with Visual Impairments

The Tataouine Regional Union for Persons with Visual Impairments requested a service vehicle from TİKA to increase its effectiveness in service delivery to persons with disabilities. To aid the organization in their mission to facilitate the participation of disabled people in social life, TİKA donated the requested vehicle. An additional service vehicle was also provided to be used for delivering products manufactured at the cleaning supplies workshop built by TİKA in 2013.

Assistance for the Employment for Persons with Disabilities

Officials from the Tunisia Tataouine Regional Union for Persons with Visual Impairments requested the construction of a workshop from TİKA to provide employment opportunities to persons with disabilities. The workshop, in which cleaning supplies could be manufactured, was built in a detached building with 130 square meters of usable area. In addition, a liquid detergent storage tank, a mixing tank, a detergent filling unit and similar supplies needed for production were provided by TİKA.

Technical Cooperation Among Statistics Institutions and Vocational Training Program

As part of the Technical Assistance Cooperation and Vocational Training Program, a training was organized with assistance from TİKA, on a residence-based population registration system and usage of data for voter registries. It was held at the Turkish Statistical Institute from 5-9 March 2014 for five experts from the Tunisian Statistics Institute.

Donation of a Traditional Tabuna Oven to Amal Association

The Amal Association requested cooperation from TİKA to develop a project aimed at creating income for low-income housewives. In order to meet the daily needs for bread among low-income families at low cost, 250 portable traditional tabuna ovens and gas cylinders were provided to the association. Moreover, packages comprising first use materials were also provided to 250 families.

Traditional tabuna ovens were donated to the Amal Association.
Seventy Tractors and Seventy Agricultural Equipment Materials for the Ministry of Agriculture of Tunisia
The Ministry of Agriculture of Tunisia requested equipment assistance from TIKA under the Assistance for Agricultural and Rural Development Project. TIKA donated 70 tractors and 70 additional agricultural equipment items to the Ministry. The aim is for the donated materials to facilitate agricultural production and increase efficiency on previously idle state land.

Donation of Harvesters to the Ministry of Agriculture of Tunisia
The Ministry of Agriculture of Tunisia requested technical equipment assistance from TIKA to bring idle agricultural land under production and to enhance the capacity of harvesting in grain production processes. To these ends, TIKA donated five harvesters and five fire trucks to the Ministry of Agriculture of Tunisia.

Construction of a Date and Textile Processing Workshop
A date and textile processing workshop was built in Chebika town.

Promoting Small Livestock Husbandry in Tunisia
The Project for Assisting Small Livestock Husbandry in rural areas of Tunisia was initiated in cooperation with the Tunisia ABAAD Association, with the aim of providing assistance to low-income families in Smar town of Tataouine where the unemployment rate is high. For each of 30 low-income families identified by the ABAAD Association, 9 goats and 1 billygoat, and thereby a total of 300 small livestock animals, were donated. Beneficiary families were also trained in small livestock husbandry.

Construction of a Date and Textile Processing Workshop
The Chebika-Tozeur Women’s Association, which carries out vocational skills training in Chebika town in Tozeur province, one of the least developed areas of Tunisia, requested assistance from TIKA to build a date and textile processing workshop. The project was initiated in cooperation with the Governorship of Tozeur. The Governorship allocated a workshop building with 90 square meters of usable space. TIKA provided the technical materials for the workshop.

Promotion of Small Livestock Husbandry in Tunisia
Support for the small livestock husbandry industry continue.
International Press Journalism Vocational Training Program
Upon request from journalists and members of the Tunisian press, TIKA assisted in sharing Turkey’s experiences in the field of media and press journalism. With cooperation from the Anatolia News Agency, a training program on international press journalism was organized in Istanbul at the agency’s News Academy from 20 October to 12 December 2014 for 20 Tunisian journalists. Direct knowledge and experience sharing was enabled between Tunisian and Turkish press members.

Construction of the Ceramics Workshop and Vocational Formation Centre
The Sidi Amor Ecological Sustainable Development Community requested assistance from TIKA for the construction of the Ceramics Workshop and Vocational Formation Centre. The Centre was built on a 70 square meter area using only environmentally friendly construction materials. TIKA also provided the necessary technical equipment for operation of the workshop.

Restoration of the Graves of Turkish Sailors
With cooperation from the Turkish-Tunisian Friendship Association, the graves of three Turkish sailors dating from 1560 on the Tunisian island of Jarba and near the historic Mustafa Pasha Castle were restored and landscaped. The graves are located in the city center and were severely damaged due many years of neglect and lack of maintenance.

Assistance for the Tunisia El Teatro Community
The General Directorate of State Theatres of Turkey organized the International Black Sea Theatre Festival in Trabzon from 2-15 May 2014. With the assistance of TIKA, Tunisia’s well-known theatre community El Teatro was able to participate in the Festival in which it put on a play entitled, “Sıfır Noktası (Zero Point)”.

Participation in the Tunisia Theatre Festival
Assistance was provided to El Teatro community for participation in the Black Sea Theatre Festival.

Construction of Newborn and Adult Intensive Care Units within Nouakchott Maternal and Infant Hospital (Mauritania)

A building was constructed at the Nouakchott Maternal and Infant Hospital to be used as Newborn and Adult Intensive Care Units. The required medical equipment was donated and an oxygen system was installed.

Training for Mauritanian Healthcare Personnel (Mauritania)

Pursuant to the cooperation agreement signed between Turkey and Mauritania on healthcare, training programs are organized every year for Mauritanian healthcare personnel in cooperation with the Ministry of Health. As part of this agreement, training was provided to six Mauritanian health personnel in Ankara between 22-26 September 2014 on zoonotic and vector diseases, microbiology, cold chain applications and preventive healthcare services including vaccinations.

Assistance for the Combat against the Ebola Outbreak (Sierra Leone and Liberia)

In their efforts to combat the Ebola outbreak which caused severe humanitarian crises in Africa, the governments of Sierra Leone and Liberia requested assistance from Turkey. TİKA sent preventive medical and hygiene supplies to the cities of Conakry, Freetown and Monrovia.

Fully Equipped Patient Transfer Ambulance for Sierra Leone (Sierra Leone)

TIKA donated a fully equipped patient transfer ambulance to Sierra Leone.

Assistance for Seychelles Hospital (Seychelles)

The Seychelles Hospital requested assistance for the renovation and furnishing of the Child Care Unit. It is the only hospital in the country with such a unit. In response, TİKA renovated the general pediatrics, newborn intensive care and pediatric intensive care units. In addition, equipment required in the birth unit was also provided.

Combat against the Ebola Virus (Sierra Leone)

TIKA provided assistance for activities carried out in prevention of the Ebola virus which was spreading across West Africa. Protective masks, protective goggles, liquid-proof overalls, operation gloves and work boots were provided for both patients and doctors in the Banjul region of Gambia. In addition, TİKA also provided the medical equipment required to enhance the quarantine rooms at the Edward Francis Small Teaching Hospital and the Soma Regional Healthcare Centre.

Training for the Healthcare Personnel (Gambia)

A Specialty Training Project was initiated through cooperation between TİKA and the Ministry of Health for healthcare personnel in Gambia. In the first phase of the project, a training program was organized in Ankara between 25 May and 7 June 2014 for a six-person committee on management and planning of healthcare services. In the second phase, a committee comprised of four Gambian doctors and eight Gambian nurses participated in a training organized at the Ankara Dr. Zekai Burak Tahir Maternity Hospital between 14 September and 1 October 2014.

Patient Transfer Ambulances

A fully equipped patient transfer ambulance was donated to Sierra Leone.
Providing Access to Water for 150 Thousand People in Cameroon (Cameroon)

In order to fulfill the need for water in rural areas of Cameroon, water wells were dug in 10 different settlements determined by local authorities. It is expected that 150 thousand people will benefit from these newly dug water wells.

Drilling Water Wells in Mauritania (Mauritania)

Under the West Africa Access to Clean Drinking Water Project, TIKA dug water wells in many parts of Africa in cooperation with State Hydraulic Works. As part of this larger project, 29 water wells were dug in Ayoun El-Atrousse region while 5 water wells were dug in the Kiffa region of Mauritania. The establishment of 60 more wells is planned in the country.

Two Garbage Trucks and 100 Containers for Mali (Mali)

TIKA donated two garbage trucks and 100 containers to Mali under a solid waste management and storage project carried out by TIKA across Africa.

Executive Training at the Ministry of Justice of Mauritania (Mauritania)

Upon request from the Ministry of Justice of Mauritania, a training program was organized from 20-24 April 2014 at the Turkish Justice Academy for five senior judges at the Ministry of Justice of Mauritania. The participation of Mauritanian executives was assisted by TIKA.

Occupational Health and Safety Training for 35 Mauritanian Experts (Mauritania)

A training was delivered to 35 Mauritanian experts at the Training Centre of the Ministry of Labor and Social Security between 14-16 April 2014 with the aim of enhancing the expertise of Mauritanian labor inspectors and controllers. Participation of the experts was supported by TIKA.

Installation of a Simultaneous Interpretation System, Display System and Online Viewing System at the Gambian National Assembly (Gambia)

Gambian officials requested assistance from TIKA for enhancing the technical capacity of the new building where the Gambian National Assembly carries out its activities. In response, a simultaneous interpretation system, display system and online viewing system were installed. Gambian officials were also trained on the effective use of the new system.

Office Materials for the Ministry of Foreign Affairs of Guinea Bissau (Guinea Bissau)

The Ministry of Foreign Affairs of Guinea Bissau requested assistance from Turkey through the Honorary Consulate of Turkey for the procurement of needed office supplies. TIKA donated 162 office supply items to contribute in the enhancement of working conditions in the Ministry.

Topography Education for the Experts of the Bissau Municipality (Guinea Bissau)

A training program was organized on the technical properties, areas of usage and other topography applications for the topography materials donated to the Bissau Municipality in 2013, which is the twin city of Ankara Metropolitan Municipality. Five experts from Guinea Bissau participated in the training. Topics including using of GPS method, measurement and assessment, and application of the land measurements to the project design were addressed.

Three Mobile Interpretation Cabins, One 4x4 Vehicle and One Reprography Unit for the Mali Humanitarian Aid Foundation (Mali)

TIKA donated three mobile interpretation cabins, one 4x4 vehicle and one reprography unit to the Humanitarian Aid Donation for the regions in need.
Technical Assistance for Guinea Bissau National Radio and Television (Guinea Bissau)
TIKA provided material assistance for the Guinea Bissau Television channel which is the only state television channel in the country, with the aim of enhancing its broadcasting capacity. A total of 2 cameras, 2 video recorders, 1 mobile monitor, 6 microphones, 1 UHF transmitter, 2 desktop computers and miscellaneous broadcasting equipment were provided to the channel. In addition, five experts from the channel underwent a one-week training program at the Turkish Radio and Television Corporation.

Guinea Bissau Television
Material assistance was provided to the Guinea Bissau Television channel which is the only public television channel in the country, with the aim of enhancing its broadcasting capacity.

Moringa Oleifera Tree Growing Project in Burkina Faso (Burkina Faso)
TIKA initiated the Moringa Oleifera Tree Growing Project in cooperation with the Belem Wend Tiga Belwet Association operating in Burkina Faso. More than 100 Moringa Oleifera saplings were planted on a 300-hectare area belonging to the Belwet Association as well as in the gardens of 75 schools in the country. Eight dryers and grinders were also provided to the Belwet Association for drying and grinding the Moringa Oleifera leaves.

Construction of a Mill (Burkina Faso)
The Piakoro Association requested the construction of a mill with the aim of enabling the people living in the rural villages of Gourmedy town of Burkina Faso to more efficiently process their crops. Eight diesel mills were thus donated to the association. Moreover, TIKA also provided the construction materials required for the construction of the buildings on which the mills would be placed.

Renovation of the Grande Central Mosque (Cameroon)
TIKA renovated the entrance door and walls of the Grand Mosque located in Cameroon’s capital Yaoundé. Outdoor landscaping work was also carried out.
Building a Computer Lab and Procurement of Generator in Zimbabwe (Zimbabwe)
TIKA provided technical assistance for Zimbabwe which is one of the countries with the lowest per-capita income in Africa. A total of 40 desktop computers, 5 laptop computers, 1 printer, a projector, computer desks and 40 power supplies were donated to a school in the city of Horare for the establishment of a computer lab. A generator was also purchased for the school.

X-Ray Device Donation to Burundi Prince Louis Rwagasore Hospital (Burundi)
In order to contribute to the improvement of the infrastructure of the healthcare sector in Burundi, TIKA donated an X-Ray device to the Burundi Prince Louis Rwagasore Hospital.

Medical Equipment Assistance for the Pediatric Oncology Department of the Namibia Central Hospital (Namibia)
Medical equipment assistance was provided to the Children’s Cancer Care Unit of the Pediatric Oncology Department of the Central Hospital in Namibia which provides treatment to children with cancer. TIKA donated a cardiology respiratory tract monitor, an intensive care bed, a mobile suction device, an electronic scale, a blood-pressure monitoring device, a mobile operation light unit and a diagnosis set to the Unit where 35 children are currently treated.

Technical Equipment Assistance for the Juba Teaching Hospital (South Sudan)
Technical materials required at the Juba Teaching Hospital, which is one of the most important hospitals in South Sudan, were provided by TIKA. The donated materials were as follows: an autoclave, an operation table, a fracture, a patient monitor for the intensive care unit, an aspirator, an EKG device, a defibrillator, an oxygen concentrator, an incubator, a mechanical ventilator, a pulse oximeter, an intramedullary nailing set, a container, a patient bed, a baby scale, a digital thermometer, a nebulizer, a resuscitation set and a teeth unit.

Donation of an Ambulance to Madagascar (Madagascar)
TIKA donated a fully equipped patient transfer ambulance to Madagascar.

Donation of an Ambulance to the Juba Teaching Hospital (South Sudan)
TIKA donated two fully equipped patient transfer ambulances to the Juba Teaching Hospital.
Training on Water and Waste Water Use in the Northern Region of Malawi (Malawi)

Training sessions on water and waste water management were organized through cooperation between the Turkish Water Institute Centre and TIKA between 13-20 July and between 9-16 November 2014. A total of twelve Malawian experts participated in the training.

Training for the Personnel of the Ministry of Water of South Sudan (South Sudan)

Turkish Water Institute organized the Water and Waste Water Treatment and Technologies Training Program between 30 June-4 July 2014 for 7 senior executives from the Ministry of Water of South Sudan. During the meeting, the applicability of the discussed topics under the conditions of South Sudan was addressed where cholera cases are common due to the water quality problems. In addition, practical training was also provided under the program at the facilities of the Istanbul Water and Sewer Administration.

Training Program for 20 Diplomats from South Sudan (South Sudan)

Within the meaning of Memorandum of Understanding signed with the Diplomacy Institute of the Ministry of Foreign Affairs of South Sudan on September 24th, 2012, a one-week protocol training program was organized in cooperation with the Ministry of Foreign Affairs of the Republic of Turkey between 12-17 January 2014 for 20 diplomats working at the Ministry of Foreign Affairs of South Sudan. In the framework of the program, topics such as general protocol rules, meetings, invitations, menus and table layout, official ceremonies, visits, flag protocol, precedence and techniques for organizing international meetings were addressed.

Training Program for Ambassadors from South Sudan (South Sudan)

A training program was organized through cooperation between TIKA and the Ministry of Foreign Affairs of the Republic of Turkey for a committee comprising of ten ambassadors working at the Ministry of Foreign Affairs and International Cooperation of South Sudan. This training program was the first training program to be organized for ambassadors within the Diplomacy Academy of the Ministry of Foreign Affairs.

In the framework of the program, the guest committee received training on our relations with South Sudan, general framework of Turkish foreign policy, mediation activities of Turkey, international security and peacekeeping activities, diplomacy and foreign policy making processes, embassy management, organization of international meetings and debate techniques.
Equipment Assistance for the Penduka Association (Namibia)
A set of sewing machines were donated to the Penduka Association which carries out activities for women in the Namibian capital of Windhoek. The machine is to be used for income generating activities.

Equipment Assistance for Mozambique Ler de Maio Orphanage (Mozambique)
The Ler de Maio orphanage, which provides services for 55 orphans between the ages of 2 and 22 was short of needed materials and equipment due to financial challenges. Children’s beds, blankets, miscellaneous textile materials and some kitchen supplies were donated by TIKA to improve the conditions of the orphanage. Two batteries to be used in the vehicles used by the orphanage were also provided.

Equipment Assistance for the Mozambique Cooperative for Persons with Physical Disabilities (Mozambique)
TIKA provided wheelchairs and crutches as well as leather, paint, chemical supplies and equipment used for handicrafts to the Cooperative for Handicrafts for Persons with Physical Disabilities which was founded by 50 people with physical disabilities.

Installation of Modern CVOR and DME Devices at Juba Airport (South Sudan)
In order to open Juba Airport to all international flights including Turkish Airlines, the CVOR and DME devices which assist navigation were replaced.

Mozambique Commodity Exchange
Four vehicles with four-wheel drives were donated to be used at the Mozambique Commodity Exchange.

Assistance for the Establishment of the Mozambique Commodity Exchange (Mozambique)
A two-week training program was organized through cooperation between TIKA and the Polatlı Commodity Exchange for eight agricultural engineers and two certification experts who will carry out the operational activities of the Mozambique Commodity Exchange currently being established by the Ministry of Industry and Trade of Mozambique. The training sessions were organized from 4-12 June and from 16-31 August 2014. In addition, four vehicles were donated by TIKA to be used by the Commodity Exchange.
South Sudan Customs Administration

Turkish Customs Legislation, Practices and Combat against Smuggling Training Program was organized for **30 personnel** from the South Sudan Customs Administration.

**Training for the South Sudan Customs Administration Personnel (South Sudan)**

Turkish Customs Legislation, Practices and Combat against Smuggling Training Program was organized for 30 personnel from the South Sudan Customs Administration in cooperation with the Ministry of Customs and Trade of Turkey from 10-14 February, 2014.

In the framework of this training program, topics such as Turkish customs legislation, customs operations, methods for combat against smuggling, combat against narcotic crimes, customs audit structure, automation systems and the build-operate-transfer model were addressed.

Training for Zambian Experts on Tourism (Zambia)

A training was organized through cooperation between TIKA and the Ministry of National Education at the Antalya Muratpasha Tourism and Hospitality Vocational High School between 29 August and 16 September 2014. TIKA provided assistance for the Zambian tourism trainers who participated in the program. At the end of the training, the Ministry of National Education and TIKA granted certificates to the trainees.

Zambia Cultural Dance Community’s Visit to Turkey (Zambia)

Members of the Zambia Cultural Dance Community visited Turkey in honor of the festivities of the 50th Anniversary of the Independence of Zambia. TIKA provided assistance for the community’s visit to Turkey.

Training on Tourism and Hospitality

A training was organized at Antalya Muratpasha Tourism and Hospitality Vocational High School between 29 August-16 September 2014. TIKA provided assistance for the tourism trainers who participated in the program.

Zambia Cultural Dance Community's Visit to Turkey (Zambia)

Members of the Zambia Cultural Dance Community visited Turkey in honor of the festivities for the 50th Anniversary of the Independence of Zambia.

N’Djamena Healthcare Vocational High School

**Additional Classroom for N’Djamena Healthcare Vocational High School (Chad)**
TIKA constructed an additional classroom with the aim of enhancing the physical capacity of N’Djamena Healthcare Vocational High School located in the nation’s capital of N’Djamena. In addition, at total of 30 computers, 1 projector and 2 printers were also donated for the high school’s computer classroom.

**Furnishing of Abidjan ASSAB Association School (Côte d’Ivoire)**
TIKA provided the classroom furniture and computers of the school of ASSAB Association operating in Abidjan, the capital of Côte d’Ivoire. Better conditions were ensured for the education of students with this assistance.

**Furnishing of the Universal Islamic and Cultural Trust Student Dormitory (Djibouti)**
TIKA furnished a student dormitory at the Universal Islamic and Cultural Trust Association operating in Djibouti. The association provides education, healthcare and shelter assistance to the children of low-income families.

---

Practical Training on Cataract

**A practical training** was delivered in Tanzania about cataract.

**Fully Equipped Patient Transfer Ambulance for Côte d’Ivoire (Côte d’Ivoire)**
TIKA donated a fully equipped patient transfer ambulance to Côte d’Ivoire.

**Assistance for Ghana in Healthcare (Ghana)**
Two separate training programs were delivered on safe motherhood and motherhood training and skills for a 15 person committee working at hospitals affiliated with the Ministry of Health of Ghana. The training was organized through cooperation between TIKA and Department of Community Health Services. In addition, technical equipment assistance was also provided for establishing continuing education centers in two different hospitals in Ghana.

**Practical Training on Cataract (Tanzania)**
The Turkey-Azerbaijan Cooperation Program was initiated in Tanzania under Turkey-Azerbaijan cooperation. Under the organization of TIKA, nearly a hundred Tanzanian patients underwent free cataract surgery and hundreds of people in need were given eye examinations from 15-24 February 2014.

**Donation of a Mosquito Control Vehicle (Chad)**
After each annual rainy season, malaria and other communicable diseases emerge to cause 100,000 deaths in Chad. In aiding the fight against these diseases, TIKA donated two ULV type and two fogging type pulverizers to the N’Djamena Municipality.
Water and Sanitation Training (Ghana)
A training was organized through cooperation between TİKA and the Water Institute of the Ministry of Forestry and Water Affairs for a delegation from the Ministry of Water Resources, Water Affairs and Housing of Ghana between 26 April and 4 May 2014 in Istanbul. During the training, theoretical information was provided on water and waste water treatment and management to Ghanaian experts. Field experiences of Turkey were shared.

Repairing Broken Water Drilling Machines (Djibouti)
Under the West Africa Access to Clean Drinking Water Project carried out in cooperation between TİKA and the General Directorate of State Hydraulic Works, three experts were assigned to repair and improve three water drilling machines owned by the Republic of Djibouti during the ongoing drilling works in the country. Under the project, inventory, inspection and delivery of spare parts provided by TİKA were also conducted by the experts. As a result of the project, a water drilling machine which had been out-of-order for the previous two years due to malfunction, was repaired and put back to use. Two other drilling machines also received maintenance and repair.

Water Drilling Training for Djiboutian Experts (Djibouti)
A training was organized in cooperation between TİKA and the General Directorate of State Hydraulic Works for Djiboutian experts on water drilling. Theoretical and practical dimensions of the technical properties of water drilling machines and their use were covered during the training. TİKA provided assistance to three Turkish experts to carry out the training.

Clean Drinking Water
Three experts were assigned to make the well drilling machines owned by the Republic of Djibouti functional.
Training Assistance for the Social Activity Centres (Chad)
Under the project initiated by TIKA in 2013, materials such as sewing machines, blackboards, desks and chairs were donated to the 11 social activity centers affiliated with the Ministry of Family and Social Activities of Chad. Upon request from the Ministry, consumables were also donated in 2014 for tailoring and sewing courses to enhance educational services at the centers. TIKA also assigned trainers to these courses for a month.

Training of Ghanaian Diplomats (Ghana)
Ten young diplomats working at the Ministry of Foreign Affairs of Ghana went through a training at the Diplomacy Academy of the Ministry of Foreign Affairs from 15-20 June 2014. TIKA provided assistance for the participation of the diplomats in the program.

Furnishing of the Côte d’Ivoire Police Laboratory (Côte d’Ivoire)
TIKA donated various consumables for chemical analyses, computers, technical equipment and microscopes of different capacities to increase the effectiveness of the laboratories of the Scientific Police Organization of Côte d’Ivoire.
Agriculture

Donation of 4 Seed Drills and 15 Motorcycles to Benin (Benin)
Under the Cotton Growing Project initiated by TIKA in 2012 in Benin, 4 seed drills and 15 motorcycles were donated in order to enhance the capacities of Cotton Research Centres.

Cotton Growing Project

Under the Cotton Growing Project in Benin, 4 seed drills and 15 motorcycles were donated in order to enhance the capacities of Cotton Research Centres.

Assistance to Vardak Hamid Karzai High School

Turkey has been participated for the Vardak Provincial Reconstruction Team for activities associated with the International Security Assistance Force in Vardak province since 2006. In 2014, TIKA transformed the building into a school and provided all necessary equipment and tools for renovation, landscaping and furnishing of the facility, including the educational tools and materials.

According to an agreement made between TIKA and the school’s management Turkish language courses are to be delivered in the school making it the only public school in Afghanistan to provide Turkish language instruction at the high-school level.

Equipment Assistance to the Educational Institution

In many regions of Afghanistan, schools are faced with delivering education under severely adverse physical conditions. There are often insufficient classroom desks and chairs. In light of this, TIKA granted 500 student desks and 25 teacher’s desks to the Sheberghan Dostum and Mireys High Schools located in Jowzjan, and to the Kübra Girls School in Kunduz.

Completing Building of Turcology Department in Jowzjan University

To promote Turkish language education in the province of Sheberghan in Northern Afghanistan, TIKA constructed a building for a Turcology department and provided the necessary materials and furnishings for its operation. In addition to Turkish language courses, the Turcology Department is also intended to provide instruction in Turkmen and Uzbek languages.

Construction of Technical Institute and Dormitory Building in Province of Jowzjan

The Jowzjan Technical Institute, which has a capacity for 600 students, has been delivering educational programming, room and board for students, and administrative services out of rented buildings. TIKA began construction of a building for instruction and student accommodation on an area of 20 acres, which will be used by the Technical Institute. The institute will deliver training courses in fields like construction, natural gas, iron works, vehicle repair, electricity etc.

School Construction in Mazar-i Sharif

The city of Mazar-i Sharif requires more schools. In this context, TIKA launched a construction project to build a school with the capacity to accommodate 7000 students. According to the plans, the school will have 42 classrooms, 1 football field, 1 volleyball field, 1 prayer room, 1 watchman room, 1 toilet building, a teachers’ lounge, a conference hall, laboratories, a library and administrative rooms.

Assistance to Education in Rural Areas

Due to insufficient educational infrastructure, education programs are often delivered in outdoor spaces in some regions of Afghanistan. Thus, harsh winter conditions often interrupt children’s’ education in these areas. The nomadic Kuchis (Kochi people) in particular, face even steeper challenges with regard to acquiring basic education. TIKA provided 115 tents so that education of Kuchi children in Kabul, Logar and Nangarhar provinces could continue uninterrupted through the winter months.
**Assistance to Education Sector**

TIKA continues to support education in Afghanistan.

**Construction of a School with 16 Classrooms in Karaköterme**

TIKA launched the construction of a school building with 16 classrooms that will serve to 1200 students in Karaköterme village, Imamsahip district of Kunduz province. Moreover, the school shall also include 1 generator building, teachers’ lounge, library and administrative rooms.

**Material Assistance and Renovation of Student Dormitories in Kabul**

The Yupekyol Foundation delivers free accommodation services to children in need who have come to Kabul from Northern Afghanistan for educational purposes. In this context, TIKA renovated two student dormitories and provided material assistance in order to increase the service capacity of the foundation.

**Furnishing of Kabul Continuous Education Centre**

A facility with three buildings was constructed in line with the request of the Afghanistan Ministry of National Education to deliver vocational training to teachers. TIKA provided all furniture and relevant materials for the facility.

**Material Assistance to Vocational Courses**

The Afghanistan Sakafat and Culture Centre organizes various vocational courses to support the livelihoods of the elderly, people with disabilities and widows who have lost their husbands due to civil war. Specifically, the center runs tailoring courses for women, carpentry courses for persons with disabilities and literacy courses for the elderly.

TIKA granted 150 sewing machines and various sports equipment to assist Sakafat and Culture Centre. Necessary materials were also provided for vocational courses held in the province of Balkh, the Akça District of Jowzjan Province and in the Juvenile Detention Centre under the Department of Justice in Sar-e Pol Province.
Health Assistance to the Districts of Kabul in Various Fields

The Kabul district of Karabag, with a population of 180,000, has under its jurisdiction six health centers, one hospital with a capacity of 20 beds and one veterinary clinic. All of these health facilities face several challenges, even in the delivery of simple examinations and basic care services. To bolster their operations, TİKA provided necessary medical devices, equipment and important consumables to all the health facilities in the Karabagh district. TİKA also granted medical equipment and consumables to the Şiveki BHC Clinic, the Bagrami BHC Clinic and the Kamari BHC Clinic in the district of Bagrami, which has a population of 250,000. TİKA also carried out renovation and repair work on the Çaman Health Centre located in the village of Hayırabad.

Medical Equipment to Tahar and Hodja Bahauddin Clinics

Medical equipment assistance was provided to Tahar and Hodja Bahauddin Afghan-Turkish Friendship Maternal and Infant Health Clinics, which are run by TİKA.

Furnishing of CHC Clinic Service Building in Kataqal’a Village

TIKA provided necessary medical equipment and furnishings for the CHC Clinic Building, constructed in Kataqal’a village of Sar-e Pol province.

Training for Atatürk Children’s Hospital Staff

In cooperation with the Ministry of Health, a six-day training course was delivered on-site to a group of eight personnel working for the Afghanistan Atatürk Children’s Hospital in order to increase the hospital’s capacity for service delivery. The Atatürk Children’s Hospital is the only hospital in Kabul to deliver pediatric services to children. It continues its essential operations in the context of Afghanistan, where a woman dies in childbirth in every 20 minutes and 700 children under five years of age die every day.

Red Crescent Health Personnel Training

TIKA held several training programs in order to build the capacity of healthcare personnel in Afghanistan and to help them provide higher quality services. A training session on pediatric cardiology was delivered to ten healthcare personnel working for the Afghanistan Red Crescent Society.

Assistance to International Medical Congress

In cooperation with the Turkish Industry and Business Association, the Second International Medical Alumni Congress was held from December 3-7 2014 in Istanbul. TİKA assisted the participation of two doctors from Afghanistan.
Construction of Deep Water Well for Ustad Vicdan High School

Upon request from the Balkh Directorate of Education, TIKA established a water well at the Ustad Vicdan High School located in Mazar-i-Sharif.

Training on Fighting Terrorism and Organized Crime

A training on fighting against terrorism and organized crime was delivered to 30 judges and prosecutors working for the Afghanistan Prosecutor’s Office and Supreme Court from September 22-26, 2014 in cooperation with the Turkish Justice Academy of the Ministry of Justice.

Material Assistance to Imam-i Buhari Orphanage

The Imam Buhari Reading Centre, which operates educational and social services under the Afghan Ministry of Pilgrimage and Foundations, is a non-governmental organization serving more than 1,000 students, most of whom are orphans.

TIKA provided necessary technical equipment and materials, including classroom desks and tables, a television, a digital camera, a projector, a sound system and a computer etc. to the Imam Buhari Reading Centre.

A guest house was constructed on the campus of the Afghan National Defense University.

Material Assistance to ten district police departments and the Jowzjan Provincial Directorate of Security in line with the aim of strengthening centralized administration in Afghanistan. In total, TIKA delivered 11 laptops, 11 printers, 1 camera, 3 portable hard disks, 3 microphones and 1 camera stand.

Construction of a Guesthouse at the Campus of National Defense University

In cooperation with the Turkish General Staff, a building with the capacity to accommodate 150 people was constructed for Turkish soldiers who provided guidance at the Afghan National Defense University Camp. After the Turkish soldiers complete their missions, the guesthouse will be transferred to the Army of Afghanistan.

TIKA provided the necessary technical equipment and materials, including classroom desks and tables, a television, a digital camera, a projector, a sound system and a computer etc. to the Imam Buhari Reading Centre.
TIKA ANNUAL REPORT 2014

Road Construction and Landscaping of Burhaneddin Rabbani Mausoleum

TIKA constructed a 500-meter-long, 8-meter-wide asphalt road and parking area large enough to accommodate 50 vehicles to facilitate transportation to and from the mausoleum of Burhaneddin Rabbani, the former leader of Afghanistan. TIKA also carried out landscaping and lighting work in the area.

Construction of Kabul Puli Sokhta Darul Aman Palace Road

As part of reconstruction efforts in Afghanistan, a road project was launched in December 2012 with the aim of improving the urban roads of Kabul. The project covered the road between Puli Sokhta and Darul Aman Place. The six-lane road was completed in 2014 and opened for public use. The road enhanced the commercial and social life of the area surrounding it which has become a new center of attraction in Kabul. The new road starts at the TIKA constructed Mirvais bridge crossing, the only bridge crossing in Afghanistan, and extends towards the parliament building, which is currently under construction. The road helped to relieve urban traffic congestion in the capital city and contributed to the socioeconomic revival of the region.

Various Equipment for Balkh Department of Irrigation, Livestock and Agriculture

The Balkh Department of Irrigation, Livestock and Agriculture requested equipment to increase the efficiency of agriculture and livestock husbandry in the region and improve the working conditions of farmers. In response, TIKA granted 2 pedal powered pumps, 2 large spraying machines, 50 back-packs spraying machines, 2 hand sprayers, 50 harvest bags, 50 harvest scissors, 50 fruit pickers, 50 aluminum ladders, 50 apple harvest baskets, 50 grape harvest baskets and 50 hand-type refractometers.

Livestock and Research Institute Training Program

TIKA held a training program in Ankara to increase technical capacity in the field of milking, and sheep and goat husbandry for ten experts working for the Afghanistan Ministry of Agriculture and Livestock.

Sapling Planting in Honor of Afghan-Turkish Friendship Day

To strengthen Turkish-Afghan relations, TIKA has been planting saplings every year since 2011 to establish the Afghanistan-Turkey Friendship Forest on the previously destroyed Pagman Hill. The area is often visited by the public and used recreationally. TIKA planted 1,000 trees in 2014.

Emergency Food Assistance to Flood Victims

A flash flood disaster took place in Jowzjan and Sar-e Pol due to heavy rains. TIKA provided emergency food aid to 750 Afghan families affected by the flood.

Food Aid

TIKA came to the aid of flood victims in Afghanistan.

Agriculture, Forestry and Fishery

TIKA delivered a training course to ten experts working for the Afghan Ministry of Agriculture and Livestock.

Furnishing and Equipment for Mustafa Kemal Atatürk Language Education Centre

Mustafa Kemal Atatürk Language Education Centre was established within Bangladesh University of Professionals in order to deliver Turkish courses and promote Turkish culture. TİKA provided the necessary equipment for the education centre. In this context, following equipment and materials were supplied: 11 computers and computer desks, 1 projector, 11 uninterruptible power supply, 21 headphones and 2 bookcases.

Health Stations in Dhaka, Gobindapur, Ratanpur, Basailvogh, Roynagor, Puratan Malidia, Boro Brahā, Borgaon, Cocker Char, Bajbee and Alampur

Providing accessible basic health services is one of the most critical challenges for Bangladesh, which is one of the least developed countries in the world. In 2014, TİKA constructed one health station in each of the following cities: Dhaka, Gobindapur, Ratanpur, Basailvogh, Roynagor, Puratan Malidia, Boro Brahā, Borgaon, Cocker Char, Bajbee and Alampur. It is expected that these health stations will provide a diverse range of services, including childbirth services, to approximately 100 patients per day.

Increasing Human Resources Capacity of Bangladesh Institute of Child’s Health Hospital

The Bangladesh Institute of Child Health is the only hospital in Bangladesh specializing in children’s services. The hospital includes a department for pediatrics and epilepsy treatment. TİKA assisted an educational visit of physicians from this department to the Pediatric Neurology Unit of İhsan Doğramacı Children’s Hospital at Hacettepe University to enhance the capacity of the attending physicians.

Equipment for Dhaka Medical College Research Hospital

TIKA provided medical equipment, including burn unit auxiliary equipment, an oxygen concentrator and consumables to the Dhaka Medical College Research Hospital.

TIKA established several health stations in various regions of Bangladesh.

Renovation of the 71st Childcare Centre
TIKA conducted the renovation of the 71st Childcare Centre, which serves children between the ages of two and five. The lighting and heating system were renewed, and furniture and other materials provided. This assistance improved the physical conditions of the center, and thus provided a healthier educational environment for the children.

Equipment Assistance to Bayan-Olgy School
The Bayan-Olgy Province Second School is the only school to provide education to ethnic groups living in Mongolia. In order to improve the service capacity of the school, TIKA supplied 40 student desks, 2 teachers’ desks and chairs, 1 laptop, 1 printer, 1 projection screen, 2 meeting tables and 20 chairs.

Assessment and Evaluation Training under Vocational Training
A training program on assessment and evaluation was delivered to ten policemen in Ankara from September 15-19, 2014 under the International Police Training Cooperation Project.

Assistance to Motuv-Der Project
The Contemporary Turkish Dialects and Literature Department of Hacettepe University implemented the Motuv-Der Project to record the linguistic cultural heritage Tuvas living in the city of Bayan-Olgy in Mongolia. TIKA supported this project by assigning three academics to the project.

Assistance to Workshop on Turkish-Mongolian Relations throughout History
TIKA assisted the participation of four Mongolian scholars in the international workshop Turkish-Mongolian Relations throughout History which was organized by the Department of Mongolian Language and Culture of Turkish Studies Institute in Hacettepe University.

Kitchen Equipment to the 163rd Childcare Centre
TIKA provided kitchen equipment to the 163rd Childcare Centre, which delivers pre-school education services to children of families living in the tent-neighborhoods of the Songinohairhan district.
Assistance to the Second International Congress of Medical Alumni
The All Industrialists and Businessmen Association (TUMSIAD) held the Second International Congress of Medical Alumni from December 3-7, 2014 in Istanbul. TIKA provided assistance for the attendance of three doctors from Mongolia.

Assistance to the Ninth National Apheresis Congress
The Turkish Society of Apheresis held the Ninth National Apheresis Congress in Izmir, which covered a range of subjects from apheresis, hematology, bone marrow transplantation and stem cells. TIKA assisted the participation of two Mongolian doctors from the Clinic of Blood Disease Science of the Public Centre Hospital 1 which operates under the Mongolian Ministry of Health.

Water Well to Galt District School
Most residents of the Galt district in Khövsgöl Province live in tent-neighborhoods with limited access to drinking water. This often forces them to resort to unhygienic water sources which in turn causes a range of health problems among them. To help alleviate this problem, TIKA drilled a water well for the Galt District School.

Turkish Judicial System and Practices Training Program
In cooperation with the Turkish Academy of Justice, TIKA assisted the participation of 21 Mongolian public prosecutors in a training program on the Turkish judicial system and practices held from 6-12 May, 2014.

Furnishing the Islam Culture Centre
The Mongolian Society of Muslims requested assistance from TIKA to furnish the Islam Culture Centre. In response, TIKA granted 25 student desks and tables, 2 projectors, a blackboard, a teacher’s desk, 7 computers, 6 armchairs, 5 hanger stands, 2 office desks and seats, 5 hide-a-bed sofas, 7 bookcases, 3 sofa suites, 6 chairs, 1 photocopy machine, a printer and a meeting table.

TIKA continues its efforts in the health sector of Mongolia.
Social Services Training for Eight Mongolian Experts
In cooperation with the Ministry of Family and Social Policies, TİKA held a training program from 18-23 August, 2014 in Ankara. Eight experts from Mongolia participated in the training program with assistance from TİKA. The program covered following topics: social assistance and fight against poverty programs in Turkey, integrated social assistance services and SOYBİS, conditional cash transfer practices in Turkey, social housing programs in Turkey, social aid targeting mechanisms, income generating support projects for poor people, the social assistance program for the widowed women, the connection between employment and poverty and general health insurance.

Sewing-Embroidery Machine for the Federation of the Visually Impaired
The Mongolian Federation of the Visually Impaired, which has 21 branches across Mongolia, continues its efforts for promoting education and employment of visually impaired citizens. TİKA granted a computerized sewing-embroidery machine to the federation in order to increase its service capacity.

Material Assistance to the Mongolian Ministry of Economy and Development
TIKA granted 19 units of equipment to the Mongolian Ministry of Economy and Development, which was established in 2012.

Basic Police Defense Tactics Training
In cooperation with the Turkish National Police, a training on police defense tactics was held for 32 Mongolian policemen from June 23-27, 2014 in Ulan Bator. The training was delivered by an expert four-person team from the Training Department of the Turkish National Police.

Training for Mongolian National Police Staff
The Department of Intelligence of the Turkish National Police held a training on data recovery and analysis from 1-7 December, 2014. TİKA assisted the participation of ten staff members of the Mongolian National Police.

Performance Audit Training Program for Auditors of Mongolian Court of Accounts
A training program on performance audit was held from 10-20 September, 2014 in Ankara with the aim of improving the human resources capacity of the Mongolian Court of Accounts in cooperation with TİKA and the Turkish Court of Accounts. Nine experts from the Mongolian Court of Accounts participated in the training program.
Asphalt Work for Bilge Tonyukuk Highway
In 2014, TIKA completed asphalt work on the Bilge Tonyukuk Highway to facilitate knowledge of the area and promote travel to the Bilge Tonyukuk Monument, which houses the oldest scripture inscription in Turkish history. The asphalt was laid along an 11-km stretch of what was previously a dirt road situated between the Tonyukuk Monument, located in the Hairhan Back Valley of Erdenne District in Töv Province, and the Arjabçavlin road fork in the Ulanbator-Öndörhaan Highway and within the boundaries of the 5th Mukhtar unit of Nalayh District in Ulan Bator Metropolitan Municipality.

Supply of Brood Stock Deer for Dukkha Turks
The Sambuu Livestock Institute requested assistance from TIKA regarding genetic disorders among the native Mongolian which have emerged as a result of interbreeding. In response, TIKA facilitated the distribution of 19 brood stock deer brought from the Tuva Autonomous Republic of the Russian Federation among the Dukkha people. Two deer of the deer were male, and 17 of them female. Fourteen of the female deer are currently pregnant and expected to give birth in May 2015.

Assistance to Participation in the Twelfth Beekeepers Association Congress
The Turkish Beekeepers Association held the 12th Asian Beekeepers Association Congress from 24-27 April, 2014 in Antalya. TIKA assisted the participation of six experts from the Mongolian Ministry of Industry and Rural Affairs in the training program.

Training Program on Providing Loans to SMEs
The Mongolian Department of Credit Guarantee Fund requested a training on the provision of loans to increase the productivity and efficiency of small and medium sized enterprises. In cooperation with the KOSGEB and the Turkish Credit Guarantee Fund, TIKA held the training program for six Mongolian experts in Ankara.

Renovation and Furnishing of Meyrim Enerel Foundation Slaughter House
TIKA renovated and furnished the slaughter house purchased by the Meyrim Enerel Foundation which aims to facilitate the access of Muslims to halal meat in Mongolia.

Energy Efficiency and Management in Industry Training
TIKA held a training program on energy efficiency and management in industry from 1-14 June, 2014 in cooperation with the General Directorate of Renewable Energy and JICA. TIKA also assisted the participation of a Mongolian expert in this training.

Nineteen deer for brood stock were brought from the Autonomous Republic of Tuva and distributed to Dukkha Turks.
Insurance Market Training

A training program on insurance markets was delivered to six auditors working for the Insurance Department of Financial Regulation Commission.

Insurance Market Training

Insurance market training was held for six auditors working under the Insurance Department of Financial Regulation Commission from 7-13 June, 2014 in cooperation with the Turkish Prime Ministry Undersecretariat of Treasury.

Study and Analysis of Bugut Höys Tolgo Inscription

New inscriptions from the Gokturk Era are found in Mongolia every year. Most of these inscriptions are analyzed by the Mongolian Academy of Sciences. TIKA provided assistance to six Turkish experts to visit Mongolia and study the Bugut and Höys Tolgo Uyghur Inscription which is in Brahmi/Sanskrit script.

Analysis of Gokturk Inscriptions

Two new Gokturk inscriptions were found in Khovd Province of Mongolia. TIKA assigned an expert to study and analyze the inscriptions on-site. Results of this study visit were published in the journal of Eurasian Studies.

Bugut and Höys Tolgo Inscriptions

Assistance was provided for six Turkish experts to visit Mongolia for the study of the Bugut and Höys Tolgo Uyghur Inscription.

T23 April Children’s Festival Celebrations

TIKA assisted the participation of 12 Mongolian children in the celebrations of the 23 April National Sovereignty and Children’s Day, which was held from 18-24 April, 2014.

Building Technical Capacity

TIKA continues its efforts to build technical capacity in Mongolia.

Establishment of a Computer Lab in Pathein Third Basic Education School
TIKA provided the necessary equipment for establishing a computer lab in the Third Basic Education School upon the request of the Ayeyarwady Administration.

Contribution to the Population Fund of Myanmar
TIKA contributed to the Project of Life Saving Measures in Childbirth conducted by the UNICEF Myanmar United Nations Office in Rakhine State.

Renovation of Yangon Muslim Free Hospital and Medical Equipment
TIKA renovated the hospital's surgery room and donated medical and technical equipment.

Equipment Assistance to Thayet District Administration
TIKA provided four computers and various other technical equipment to the Thayet District Administration.
Donation of Tractors, Disc Ploughs, Rotators, Spray Machine and Fertilizer
TIKA granted four tractors, four disc ploughs, four rotators, fertilizer and one spraying machine to the Myanmar Ministry of Agriculture and Irrigation.

The Thayet Turkish War Cemetery
TIKA renovated this burial ground and memorial for Turkish soldiers which is situated in the Thayet District of Magway Region.

Humanitarian Assistance to Arakan Rohingya Muslim Community
Thousands of people left their homes and became refugees due to violence against the Muslim population living in the Arakan region of Myanmar. TIKA provided humanitarian aid to the refugees in need in cooperation with The Relief Committee. Food and other aid materials were delivered to approximately 500,000 people.

Humanitarian Assistance to Thandwe Town in Arakan Region
In cooperation with Thandwe Social Network and the Ministry of Foreign Affairs, TIKA provided food aid to 159 families in the town of Thandwe in the Arakan Region.

Medical assistance to Arakan Camps
TIKA provided medical aid in the form of medicines to the refugee camps in Myanmar.

Construction of Thayet Turkish Martyrs’ Cemetery
Some Turkish soldiers, who were taken prisoner of war (PoW) by the British, were transported to cities in Myanmar such as Thayet and Metila where they died and were buried.

In cooperation with the Turkish Embassy in Myanmar, the Ministry of Family and Social Policies and the Ministry of National Defense, TIKA renovated the cemetery in the Thayet District of Magway Region. This cemetery is one of the memorial burial grounds of the aforementioned Turkish soldiers. A list, which covers the sketches of Thayet cemetery, and the names and dates of death of soldiers and civilians is currently available. The Thayet Turkish Martyrs Cemetery Project is planned in line with this information, including the names on headstones. However, no such information is available for Turkish soldiers buried in the city of Metila.

Pharmaceutical Aid for the Refugees
TIKA provided pharmaceutical assistance to refugee camps in Myanmar.

**Population:** 182,100,000

**Surface Area:** 796,095 km²
The Muzaffargarh Emine Erdoğan Girls School

The Muzaffargarh Emine Erdoğan Girls School was put into service.

Muzaffargarh Emine Erdoğan Girls School

TIKA launched a school construction project in Muzaffargarh, one of the cities most affected by the Punjab region flood disaster of 2010. A school for girls with 30 classrooms and a dormitory with a capacity of 200 beds were built and furnished. The Pakistani authorities named the school the Emine Erdoğan Girls School.

Laboratory and Library for Haripur School and Sargodha Girls School

The Human Rights and Freedom Foundation requested assistance from TIKA for the establishment of a lab needed for physics, chemistry, biology and computer instruction in the Haripur School which serves 450 students. In response, TIKA donated 30 desktop computers, 2 laboratory tables, 12 cabinets, and course materials for physics, chemistry and biology courses. Furthermore, TIKA also provided the necessary materials for establishing a computer lab and library in the Sargodha Girls School, which operates under the Khubaib Foundation.

Establishment of Computer Lab in Kaid-i Azam University

TIKA constructed a computer lab to provide computer and internet access to the students staying in the girls’ and boys’ dormitories of Kaid-i Azam University.

Assistance to Turkish Department of the National University of Modern Languages

TIKA provided the necessary equipment assistance for establishing a Turkish library at The National University of Modern Languages. The following materials were provided: 1 laptop, 1 television, 1 desktop computer, 1 internet modem, 2 printers, 3 cartridges, 16 genesis education units, 1 projector, 1 rear projection screen, 1 round meeting table, 12 chairs and 1 cabinet.

Establishment of Sewing-Embroidery Vocational Training Centre

TIKA established a Sewing-Embroidery Vocational Training Centre with the aim of creating income generating opportunities for poor families living in Depalpur, one of the biggest districts in Pakistan. TIKA renovated the training center building and provided the following items: 35 sewing machines, 10 embroidery machines, 1 knitting machine, 48 chairs, 3 teacher’s desks, 3 cutting tables, 3 cabinets and 1 generator.

Haripur School Laboratory

A lab was established in the School of Haripur.
Construction and Furnishing of Recep Tayyip Erdoğan Hospital

Hospital construction was started in Muzaffargarh, one of the cities most affected by the Punjab region flood disaster that took place in 2010. The hospital, with a capacity for 50 beds, was constructed and furnished with modern medical equipment. Pakistani authorities named the hospital the Recep Tayyip Erdoğan Hospital.

Renovation and Equipment for Pakistan Federal Government Services Hospital

TIKA provided equipment assistance to the Pakistan Federal Government Services Hospital, which is the second biggest public hospital in Islamabad. The following items were granted to the hospital: 4 air-conditioners, 2 intensive care monitor sets, 10 wheelchairs, 2 wheeled stretchers for carrying patients, 1 dental chair, an autoclave and auxiliary materials, 1 portable x-ray machine, 4 scaler devices and 1 split air-conditioner. Moreover, the hospital’s examination room for women and toilets were also renovated.

Establishment of a Neonatal Unit in Okara Public Hospital

TIKA provided equipment assistance to the Okara Public Hospital to bring newborn healthcare services in line with international standards. The following pieces of equipment were donated for the establishment of a neonatal unit: 6 incubators, 4 baby radiant heaters, 10 cribs, 6 pulse oximeters, 4 resuscitation wheel stretchers, 8 phototherapy devices and oxygen equipment.

Equipment Assistance to the National Institute of Rehabilitation Hospital

TIKA granted a cystoscope device to the National Institute of Rehabilitation Hospital.

Workshop on Municipalism

The Second Workshop on Municipalism was held in the cities of Lahor and Murree.

Assistance to the Second Workshop on Municipalism

TIKA provided assistance to the Second Workshop on Municipalism, held from 12-18 October, 2014 in Islamabad, Lahor and Murree.

Support for Ameer Begum Welfare Trust Foundation

TIKA donated 50 wheelchairs to the Ameer Begum Welfare Trust Foundation.

Wheelchair Assistance for Persons with Disabilities

The Ameer Begum Welfare Trust Foundation, which was established to cater to the needs of persons with disabilities, requested wheelchairs from TIKA to distribute to 50 people in need living in the city of Okara.
Goat Husbandry Project for Empowerment of Women in Rural Areas
A total of 240 goats were distributed to poor families under the Raising Goats Project, launched by TİKA and the Faisalabad Agriculture University. The project started with 48 in 2012 and reached 60 female headed households by the end of 2014.

Assistance to Sheep and Goat Husbandry Congress
TIKA assisted the participation of two instructors from the Pakistan Agriculture University in the Sheep and Goats Husbandry International Congress held from 16-18 October, 2014 in Konya.

Assistance to the Village of Eyüp Sultan
TIKA continued its efforts for the development of sheep and goat husbandry in Pakistan.

Helping Hand International launched the Eyüp Sultan Village Establishment Project on an area of 44 decares in order to provide relief to the flood-affected areas of Pakistan and support rural development.

TIKA supported this project through donation of various technical and health equipment. The following materials and equipment: a ventilator, 40 washing machines, 40 sewing machines, 40 refrigerators, 6 computers, 10 sound systems, 2 photocopy machines, 1 projector, 1 printer, 2 irons, 40 patient beds, 4 sterilizers, 1 obstetrics table, 40 examination beds, 2 medical dressing sets, 1 screen set, 4 serum stands, 6 medicine cabinets, carpet, curtains, 80 bathroom sets, 80 pans, 160 stationery sets, 100 bed foams, 240 table, 80 office seats, 12 library cabinets, 1 house cupboard, 40 tables, 1 teacher’s desk and 10 student’s desks.

TIKA distributed 12,000 dry food boxes in the cities of Gujrat, Hafizabad, Sargodha, Jhang, Chiniot, Muzaffargarh and Kashmir, all of which were affected by the flood disaster that took place in September 2014.

TIKA distributed 12,000 dry food boxes in the cities of Gujrat, Hafizabad, Sargodha, Jhang, Chiniot, Muzaffargarh and Kashmir, all of which were affected by the flood disaster.

Establishment of Two Computer Labs for Manila Justo Lukban Elementary School
TIKA donated equipment for establishing two computer labs in Manila Justo Lukban Elementary School where 2,800 students received education. The following items were donated: 32 desktop computers, 10 power supply sources, 8 printers, 5 laptops, 32 computer desks and 32 chairs.

Academy of Justice Training Program
The Academy of Justice held a training program for 18 experts from the Moro Autonomous Region of Philippines from 3-14 November, 2014 in Ankara. The training program covered the following topics: separation of powers, introduction to the Turkish legal and judicial system, criminal investigation and proceedings under the Code of Criminal Procedure, methods for juvenile investigation and proceedings, legal procedures in criminal justice, fighting against narcotic crimes and the law on criminal execution.

Establishment of Computer Labs for Children
TIKA established a computer lab with 15 computers, computer desks and chairs in the Uğur Süleyman Söylemez Orphanage which services 40 children. A lab was also established at the Dar-ul Ulum Veli Hikmet School, which opened in Cotabato in 2011.
ICAMES Meeting

TIKA assisted the participation of Kristofer Haliansyah from Indonesia University in the activities of the International Cultural and Academic Meeting of Engineering Students (ICAMES), which was held in cooperation with Boğaziçi University and TUBITAK from 10-17 May.

Participation in Icames Meeting (Indonesia)
TIKA assisted the participation of Kristofer Haliansyah from Indonesia University in the activities of the International Cultural and Academic Meeting of Engineering Students (ICAMES), which was held in cooperation with Boğaziçi University and TUBITAK from 10-17 May.

Support for Tuvalu Ministry of Foreign Affairs

A printer and scanner were provided to the Tuvalu Ministry of Foreign Affairs.

Training for Diplomats from Bhutan (Bhutan)
TIKA assisted the participation of four diplomats from the Bhutan Ministry of Foreign Affairs in a training program held by the Diplomacy Academy of the Ministry of Foreign Affairs.

Equipment Assistance to Tuvalu Ministry of Foreign Affairs
A printer and scanner were provided to the Tuvalu Ministry of Foreign Affairs.

Assistance to Vanuatu Embassy (Vanuatu)
TIKA granted two computers to Canberra Embassy chancellery of Vanuatu.

Boat Assistance to Flood-Affected Schools (Solomon Islands)
Buildings and infrastructure were seriously damaged after the flood disaster that took place in April. This situation also interrupted education services. TIKA granted a boat and motorboat to the Selwyn College Community High School, the only secondary school in the country to serve disabled children, so that students would still be able to attend school.

Assistance to the Republic of Palau
TIKA granted 50,000 USD to the Republic of Palau for the 45th Pacific Islands Forum.

Assistance to the National Project of Eliminating Violence against Women in Kiribati (Kiribati)
TIKA granted 100,000 USD to the National Project for Eliminating Violence against Women in Kiribati, which was developed for the period of 2014-2017 in cooperation with the United Nations and Kiribati Ministry of Women, Youth and Social Affairs.

Assistance to Hafiz Society (Malaysia)
TIKA furnished the Hafiz Society Dormitory, which operates under the Malaysia Islam Culture Centre in the city of Nilai.

Improving Biosafety (Vanuatu)
Upon request from the Vanuatu Ministry of Agriculture, Livestock, Forestry, Fishery and Biosafety, an x-ray device was provided to improve biosafety at the country’s entry points.

Cooperation with United Nations Development Programme (UNDP)

TIKA launched a project in 2008 with the support of the Ministry of Foreign Affairs and UNDP. The project was conceived with two purposes: firstly to promote Turkey’s role as a donor and secondly, to support Turkey’s leadership in development cooperation in the international arena. In accordance with the principles of the Paris Declaration adopted in 2005, the purpose was also to contribute to capacity building of TIKA in order to increase the efficiency of Official Development Assistance of Turkey.

Our Minister of Foreign Affairs Mr. Ahmet Davutoğlu and the UNDP Secretary General Ms. Helen Clark signed a Partnership Framework Agreement in March 2011. The following aims were articulated in the agreement: (1) to contribute to expand the institutional capacity of TIKA, (2) through the Istanbul International Centre for the Private Sector in Development, to establish private sector cooperation for development and (3) to engage in information sharing through South-South and triangular cooperation.

In this regard, the UNDP assisted in the following ways to help increase capacity in the area of development assistance: (1) conducted a “capacity assessment and requirements analysis”; (2) assisted in the establishment of the Development Cooperation Strategy of Turkey; (3) in collaboration with OECD Development Assistance Committee (DAC), held a seminar on the development strategies and law enforcement in other countries; (4) established the Expert Information Bank, wherein portfolio of 1,500 international experts from various sectors, (5) ran various training programs and courses such as on Project Cycle Management, to increase the vocational capacities of TIKA employees; (6) commissioned three experts from TIKA as Secondees to work at the UNDP offices of Bosnia-Herzegovina, Tajikistan and Senegal for four months in order to establish draft country strategies.
High Level International Conference: “International Development Cooperation: Trends and Opportunities, Perspectives of New Actors”

In the framework of the South-South Cooperation Project being carried out with UNDP since 2008, an international conference entitled, “International Development Cooperation: Trends and Opportunities, Perspectives of New Actors”, was held in Istanbul from 19-20 June, 2014 with the collaboration from the Ministry of Foreign Affairs. Over 200 representatives from international organizations, civil society organizations, universities and the private sector attended the conference, including four ministers and agency administrators. The final report of the conference, which was opened by the Deputy Prime Minister Mr. Emrullah İşler and the UNDP Administrator Helen Clark, was presented at the high level meeting of the United Nations Economic and Social Council (ECOSOC) Development Cooperation Forum (DCF) held in New York on 10-11 July, 2014.

In accordance with the South-South Cooperation Project goals, the conference aimed to build a bridge between the “Global Partnership for Effective Development Cooperation High Level Meeting” held in Mexico in April 2014 and the United Nations Development Forum held in New York in 2014, and to contribute to the intergovernmental process. A follow-up meeting of the conference is planned for 2017.

Istanbul International Centre for Private Sector in Development (IICPSD)

The Istanbul International Centre for Private Sector in Development (IICPSD) began its operations in Istanbul in accordance with the Partnership Framework Agreement signed with UNDP on 11 March, 2011. The purpose of IICPSD was determined as working to increase private sector participation in the development processes. TİKA provides space and cleaning services for the IICPSD in accordance with the Implementation Protocol signed by TİKA and UNDP on 2 March, 2011. Currently, four experts from TİKA are exchanged under IICPSD.

Growing Inclusive Markets Initiative

The project launched in 2009 by TİKA and the UNDP Bratislava Regional Centre intends to develop business models for the poor in Bosnia-Herzegovina, Kosovo, Kazakhstan and Uzbekistan. In that regard, 20 inclusive business models have been developed in these four countries since the initiation of the project.
Cooperation with the Food and Agriculture Organization (FAO)

With the collaboration of TIKA, the Ministry of Food, Agriculture and Livestock, and the Food and Agriculture Organization, a training program concerning food safety and project cycle management was held from 2-14 June, 2014 in Izmir.

Recycling Technologies in Plastic Industry Workshop

Recycling Technologies in the Plastic Industry Workshop was held from 8-19 September, 2014 with collaboration between TIKA, TUBITAK and the United Nations Industrial Development Organization. Overall nine experts from Ivory Coast, Kazakhstan, Kyrgyzstan, Montenegro, Myanmar, Nigeria, Sudan, Vietnam and Zimbabwe attended the workshop.

The International Workshop on Clean Room for Critical and Sustainable Technologies

With the collaboration between TIKA, the Ministry of Science, Industry and Technology, Bilkent UNAM and UNIDO, was held from 16-27 June, 2014. Overall 29 experts from Azerbaijan, Bangladesh, Georgia, Kazakhstan, Libya, Egypt, Moldova, Pakistan, Sudan, Ukraine, Jordan and Yemen attended the workshop.

Food Safety and Project Cycle Management Training

With collaboration between TIKA, the Ministry of Food, Agriculture and Livestock and the Food and Agriculture Organization, concerning food safety and project cycle management was held from 2-14 June, 2014 in Izmir. The purpose of the training was to raise awareness of these issues and to ensure increased capacity and information and experience sharing between countries. Four experts from Kyrgyzstan, three from Tajikistan, five from Afghanistan and one from Uzbekistan attended the program.

Cooperation with United Nations Industrial Development Organization (UNIDO)

TIKA carried out an International Workshop on Clean Room for Critical and Sustainable Technologies from 16-27 June, 2014 with the collaboration of the Ministry of Science, Industry and Technology, Bilkent UNAM and UNIDO.

A Productivity, Production and Food Safety training was conducted in Izmir from 24-28 November, 2014.

Productivity, Production and Food Safety Training

The International Fund for Agricultural Development requested educational cooperation from TIKA to raise awareness on productivity, production and food safety and to increase capacity among attendees in dealing with these issues. To this end, a Productivity, Production and Food Safety training was conducted in Izmir from 24-28 November, 2014. Overall 14 experts including four from Sudan, four from Morocco, two from Tunisia and four from Yemen, attended the program.
TIKA continues to cooperate with international organizations.

**OECD Ankara Multi-Lateral Tax Centre**

Every year, TIKA contributes financially to the OECD Ankara Multi-Lateral Tax Centre, founded to assist countries across Eurasia establish tax systems compliant with the market economy and international standards.

**OECD Development Centre**

The purpose of the OECD Development Centre is to gather knowledge and experience on the state of current economic development, and on the design and implementation of general economic policies of member states and to make this information available to developing countries. TIKA has been paying Turkey’s membership fee since 2006.

**Cooperation with Islamic Development Bank (IDB) and the Statistical, Economic and Social Research and Training Centre for Islamic Countries (SESRIC)**

Under the Memorandum of Understanding signed by TIKA, IDB and SESRIC in June 2014, TIKA will strive to share the experiences and knowledge of Turkey across various areas with the member states of the Islamic Development Bank.

**Cooperation with D-8**

TIKA and the D-8 (Developing Eight) signed a Memorandum of Understanding in July 2014 to make their current activities more effective and to foster collaboration among them.
Third Country Training Program on Energy Efficiency and Management in Industry

In collaboration with the Ministry of Energy and Natural Resources, the General Directorate of Renewable Energy and the Japan International Cooperation Agency (JICA), training programs on the theme of Energy Efficiency and Management in Industry have been organized since 2011 to improve regional energy cooperation among Asian, Middle Eastern and Balkan countries, especially Turkic Republics.

The purpose of these training programs is to improve knowledge and skills in energy efficiency audit knowledge and techniques through theoretical and practical studies; to contribute to the effective usage of energy and reduction of CO2 emissions in the region and to aid participants identify and take advantage of feasible opportunities to reduce energy costs.

Project of Extending Industrial Automation Technologies in Central Asia and Middle Eastern Countries

The Project of Extending Industrial Automation Technologies in Central Asia and Middle Eastern Countries was launched in collaboration with Japan International Cooperation Agency (JICA) to contribute to capacity building in developing countries through third country training programs operating under South-South cooperation. The project, running from 2012 to 2015, aims to ensure human resource development in the industrial automation technologies field in target countries through information sharing and to improve the curriculum of related fields.

In this regard, in accordance with the protocol signed by TIKA, the Ministry of National Education and JICA covering the period from 2012-2015, technical training was provided for officials from Afghanistan, Azerbaijan, Palestine, Kazakhstan, Kyrgyzstan, Pakistan, Tajikistan and Turkmenistan at the Izmir Mazhar Zorlu Technical and Industrial Vocational High School Teacher Training Centre.

At the start of the project, a requirements analysis was conducted in order to identify the state of industrial automation technologies in target countries. According to the findings of this analysis, Tajikistan, Turkmenistan, Kyrgyzstan, Uzbekistan, Afghanistan and Palestine needed basic level training in industrial automation technologies thus determining that such training would be delivered for these countries.

In contrast, it was found that Kazakhstan, Azerbaijan and Pakistan had more advanced or mixed knowledge and experience with industrial automation technologies. It was determined that intermediate and advanced level training would be offered for participants from Pakistan, while beginner and intermediate training would be offered for participants from Kazakhstan and beginner level training to participants from Azerbaijan.

Cooperation with Japan International Cooperation Agency (JICA)

The Project for Extending Industrial Automation Technologies in Central Asia and Middle Eastern Countries was launched in collaboration with Japan International Cooperation Agency (JICA).
INTERNATIONAL COOPERATION AND PARTNERSHIPS

COOPERATION WITH BILATERAL DEVELOPMENT AGENCIES

Technical Capacity Building in Livestock Husbandry Training Program for Afghanistan and Central Asian Countries
With collaboration between TIKA, the Lalahan Livestock Research Institute and JICA, Dairy Cattle, Sheep and Goat Husbandry Technical Capacity Development Training Program was run for three years in order to share Turkey's experience in the livestock sector with countries in Central Asia and the Middle East.

Under the program, trainees from Kyrgyzstan, Uzbekistan, Tajikistan, Kazakhstan and Afghanistan have been trained since 2013. TIKA has provided assistance in identifying participants through its coordination offices as well as in organizing logistics for the trainings.

Earthquake Engineering Disaster Management Training Program
The Engineering Disaster Management Training Program, which is planned to run for three years, launched with collaboration between TIKA, AFAD, Istanbul Technical University and JICA. Ten experts from Albania, Azerbaijan, Bosnia-Herzegovina, Kosovo, Georgia, Moldova, Tajikistan, Turkmenistan and Macedonia attended the training session held in 2014.

KOICA and TIKA signed a memorandum of understanding to reduce global poverty, work towards sustainable development and achieve post-2015 goals in accordance with their own goals in international development.

In the framework of a well-established friendship between Korea and Turkey, in 2011, TIKA and the Korea International Cooperation Agency (KOICA) signed a Memorandum of Understanding, which would serve as a foundation for joint development cooperation action.

After the high level contact between the two organizations, a delegation led by the President of KOICA Young-Mok Kim visited TIKA President Dr. Serdar Çam on 13 August, 2014 to present solid project proposals and exchange ideas regarding cooperation between the countries. During the visit, they signed a Memorandum of Understanding on new cooperation opportunities regarding Palestine, Cambodia, Myanmar and Pakistan in order to reduce global poverty, to achieve sustainable development, work towards the post-2015 goals and to act in line with the Busan Development Principles and in accordance with the goals of KOICA and TIKA in international development.

It is appreciated in the international development community that Korea has become a provider of assistance having previously received it and that both Korea and Turkey have increased their presence and activity in foreign aid. Cooperation between them makes sense in light of Korea becoming a member of the OECD Development Aid Committee in 2009 and Turkey's invitation to the DAC. The said cooperation would add a different dimension to the development work carried out by both countries.

Cooperation with the Korea International Cooperation Agency (KOICA)

Through cooperation between TIKA, the Lalahan Livestock Research Institute and JICA, the Dairy Cattle, Sheep and Goat Husbandry Technical Capacity Building Training Program ran for three years.

KOICA and TIKA signed a memorandum of understanding to reduce global poverty, work towards sustainable development and achieve post-2015 goals in accordance with their own goals in international development.
**Educate a Child Program**

The Educate a Child Program was launched through cooperation between TIKA and Qatar Education Above All (EAA) in order to provide education opportunities for children who otherwise have not had the chance to go to school. TIKA President Dr. Serdar Çam and EAA Administrator Marcio Barbosa signed a Memorandum of Understanding on 22 October, 2014, during a ceremony attended by the Deputy Prime Minister Prof. Dr. Numan Kurtulmuş and Şeyha Moza bint Nasser, who was visiting Turkey at the time.

The Educate a Child Program, under the EAA is a global initiative with the goal of significantly reducing the number of children out of school. The program, which was inspired by the Millennium Development Goals ultimately aims for all children to have access to primary school education by 2015-2016. It is working with partners to reach millions of children affected by poverty and crisis.

---

**Mexico-Turkey Development Cooperation**

On 29 September, 2014, a Memorandum of Understanding was signed by TIKA and the Mexican Agency for International Development Cooperation (AMEXCID) in order to foster cooperation through concrete development activities. Through the agreement, Turkey aims to benefit from Mexico’s experience and knowledge in Central and South America while Mexico will likewise be able to learn from Turkey’s experiences in Central Asia and Africa. In the context of this new relationship, Turkey and Mexico have planned to launch joint projects in various countries in areas ranging from agriculture, livestock, health, access to clean water and vocational training.

---

**Cooperation with Qatar Education Above All Foundation**

Through collaboration initiated between TIKA and Qatar Education Above All (EAA), children deprived of basic education opportunities in partner countries were given the chance to go to school.

---

**Cooperation with the German Agency for International Cooperation (GIZ)**

In the framework of cooperation between the German Agency for International Cooperation (GIZ) and TIKA, TIKA officials visited the GIZ Eschborn office in March 2014 and ideas were exchanged regarding potential cooperation areas and target countries. The rest of the meeting was held in Turkey in September 2014.
International Police Training Cooperation Project
With collaboration between TIKA and the Turkish National Police, the International Police Training Cooperation Project was launched in 2007-2008 in the pilot countries of Albania and Kyrgyzstan. Kazakhstan, Turkmenistan, Mongolia and Palestine joined in 2008-2009; Bosnia-Herzegovina in 2010; Azerbaijan and Uzbekistan in 2011; Macedonia and Tunisia in 2012; Montenegro, Maldives, South Sudan and Libya in 2013 and Moldova in 2014.

The project’s aims included the sharing of mutual experiences across countries, delivering practical in-service training, the formation of a common consciousness in fighting against crime, uniformity in terminology, the promotion of international standards in policing practices and the development of a coordinated approach to dealing with regional security issues.

The project also aimed to accelerate institutionalization of police departments through training as delivered by Turkish police officers to senior police officials and specialized units in partner countries to update them on advances in policing.

In 2014, the National Police Directors of Tanzania and Gambia, and the Deputy National Police Director of Montenegro visited Turkey to express their appreciation of the project.
**Bosnia-Herzegovina**

Two courses were held for the Bosnia-Herzegovina police in 2014. Overall 34 people, including 15 personnel in Bosnia-Herzegovina and 19 in Turkey, were trained. The courses were, “Security Management in Social Unrest” which ran from 12-16 May, 2014 in Bosnia-Herzegovina and “Cyber Crime Inquiry and Investigation Training” which ran from 9-14 June in Bosnia-Herzegovina.

**Palestine**

For Palestine police, the “Special Forces Operational Shooting Techniques Course” was held from 7-18 April, 2014 in Turkey with the participation of 20 people.

**Azerbaijan**

Various courses were held for the Azerbaijan police in 2014 and overall 66 people were trained, 43 of which were trained in Azerbaijan and 23 of which were trained in Turkey. The “Special Forces Operational Shooting Techniques Course” was held for Palestine police from 7-18 April, 2014 in Turkey with the participation of 20 people while the “Murder Crime Investigation Techniques Course” was held with the participation of 21 people in Palestine from 7-11 April.

**Haiti**

As part of the International Police Training Cooperation Project carried out through collaboration between TIKA and the Turkish National Police, the “Police Leadership Seminar Course” was held for Haiti National Police from 23 September to 4 October 2014 in Turkey.

Turkey has also been augmenting Haitian police forces in the framework of the UN Peacekeeping Mission. In this regard, the Haiti Director of National Police and Head of Foreign Affairs Department paid a visit to Turkey from 19-24 May 2014 with TIKA’s assistance to nurture relations between two countries.

The “Police Leadership Seminar Course” was held for Haiti National Police from 23 September to 4 October 2013 in Turkey.
During the courses held in 2014, 71 people overall, including 35 in Turkey and 36 in Montenegro, were trained. The courses were: (1) from 17-21 March, “Identifying Travel Document Fraud Course” in Turkey; (2) from 19-30 May, “Special Forces Operational Shooting Techniques Course” in Montenegro; (3) from 25-29 August, “Post-Explosion Investigation Course” in Montenegro; (4) from 18 August to 12 September, “Motorcycle Police Teams Basic Training Course” in Turkey; (5) from 18 August to 12 September, “Police Professional Ethics Course” in Turkey.

During the courses offered to Kazakh police in 2014, 69 people overall, including 25 in Turkey and 44 in Kazakhstan, were trained. These courses were as follows: (1) from 12-23 May, “Special Forces Operational Shooting Techniques Course” in Kazakhstan; (2) from 22 September-17 October, “Basic Special Forces Course” in Kazakhstan; (3) from 20-26 October, “Crisis Management in Terrorist Acts Course” in Turkey; (4) from 10-21 November, “Training Course for Police Trainers” in Turkey.

TIKA undertook transportation of security equipment provided by the Turkish National Police to the Democratic Republic of Congo.

The “Prevention of Social Unrest Course” was held from 9-13 June, 2014 in Kyrgyzstan. A total of 15 participants were trained.

In addition, TIKA provided and delivered eight radar devices to the Kyrgyzstan Directorate of National Police as Kyrgyzstan officials had showed an interest in the successful traffic control practices in Turkey during training programs for Republic of Kyrgyzstan Directorate of Traffic administrators and experts. The trainings were held in Turkey from 17-21 March, 2013 and from 31 March to 5 April 2013. The Kyrgyzstan officials requested the devices to help prevent traffic accidents resulting from excessive speed and alcohol.

Assistance was also provided to the Kyrgyzstan Police in 2014 for renovating the Police Academy gymnasium which was unusable at the time. The renovation improved education standards in the Kyrgyzstan Police Academy.

TIKA arranged for the transport of equipment provided by the Turkish National Police usable in situations of social unrest upon the request of a delegation headed by the Director of National Police of the Democratic Republic of Congo Mr. Charles Bisengimana in the spirit of security collaboration between Turkey and the Democratic Republic of Congo.
Various courses were held for Maldives police. Eleven officers were trained in Turkey, while 60 were trained in the Maldives. Overall, 71 police officers took part in the training.

The “Theft Crimes Investigation Techniques Course” was held in Macedonia in which 24 Macedonian police participated.

The “Protecting Very Important Persons Course” was held in Turkey from 22 September to 1 October 2014 with the participation of 19 Macedonian police while the “Theft Crimes Investigation Techniques Course” was held in the country from 3-7 November 2014 in which 24 Macedonian police took part.

Three courses were held in 2014 and 60 people were trained overall including 40 of who were trained in Mongolia and 20 trained in Turkey. The courses were: (1) from 23-27 June, “Police Defensive Tactics Basic Training Course” in Mongolia; (2) from 15-19 September, “Evaluation and Assessment in Vocational Training Course” in Turkey; (3) from 1-7 December, “Data Recovery and Analysis Course” in Turkey.

In 2014, the “Police Defensive Tactics Basic Training Course” was held from 13-24 October with the participation of 15 people while the “Management and Leadership Course” was held from 20-24 October in Moldova with the participation of 21 people.
INTERNATIONAL COOPERATION AND PARTNERSHIPS

INTERNATIONAL POLICE AND GENDARMERIE TRAINING COOPERATION

A total of 111 people in total were trained in courses conducted in Uzbekistan in 2014. The courses were: (1) from 26-30 May, “Negotiation in Social Unrest Course” in Uzbekistan; (2) from 11-15 August, “Safety Units Human Resources Management Information Systems Course” in Uzbekistan; (3) from 8-12 September, “Sports Safety Practices Training Course” in Uzbekistan; (4) from 22-26 September, “Combating Auto Theft Course” in Uzbekistan; (5) from 10-14 November, “Community Oriented Policing Basic Training Course” in Uzbekistan.
Cooperation with Gendarmerie General Command

With collaboration between TIKA and Gendarmerie General Command, training programs were implemented in many countries.

With collaboration between TIKA and Gendarmerie General Command, training programs were held in order to increase mutual cooperation between law enforcement entities across different countries. A course for law enforcement officials from Nigeria, Cameroon and Gambia entitled, “Fighting against Narcotic Drugs and Psychotropic Substances” was held from Turkey from 23 June to 4 July 2014 in which 12 officers participated. Kazakh law enforcement officials received the “Protecting Vulnerable Points and Persons Training Course” which was held in Turkey from 16-29 November. Twelve officers attended the training. The same course was held for law enforcement officials from Kyrgyzstan from 7-20 December in Turkey, and 12 officers participated.

Fighting Against Narcotics

A course for law enforcement officials from Nigeria, Cameroon and Gambia entitled, “Fighting against Narcotic Drugs and Psychotropic Substances” was held from Turkey from 23 June to 4 July 2014 in which 12 officers participated.
**Bishkek**

A total of 150 students from the Meskhetian Turk community were assisted to attend a workshop held at Manas University in Bishkek.

**Exiled Meskhetian Turks University Students Workshop**
The Union of Meskhetian Turks Worldwide (DATÜB) assisted a total of 150 students from exiled communities of Meskhetian Turks from the United States of America, Azerbaijan, Georgia, England, the Russian Federation, Kazakhstan, Kyrgyzstan, the Turkish Republic of Northern Cyprus and Turkey, to attend a workshop held at Manas University in Bishkek from 15-18 August 2014.

**Solutions for Education Problems in Africa**
The Project of Solution Studies for Education Problems in Africa was developed in cooperation with civil society organizations in order to identify and solve problems encountered by African countries in the education sector. Study visits and seminars were conducted for educational organizations in various regions in Tanzania from 11-26 July 2014.

---

**International Vocational and Technical Training Program**
Under the International Vocational and Technical Training Program (Türkmek) carried out in cooperation with local civil society organizations, the Istanbul Chamber of Commerce and TIKA, 70 people were provided with training in vocational fields such as office management, executive assistance, computerized accounting, chart design and web design.

**Assistance to Civil Society Organizations**
TIKA provided supplies needed for the Youth and Culture Centre established in collaboration with civil society organizations with the aim of increasing employment opportunities through education for youth in Darussalam, Tanzania. The center is currently providing services for 350 students.
**First Eurasian Respiratory Summit**
In cooperation with Eurasian countries, the Academic Respiratory Society held the First Eurasian Respiratory Summit on tobacco use, which is the leading cause of respiratory health problems and respiratory illnesses including tuberculosis. TIKA assisted participants from Albania, Azerbaijan, Russia, Romania, Georgia, Kyrgyzstan, Macedonia, Moldova, Serbia and Czech Republic to attend the Summit held in Istanbul from 21-23 September 2014.

**Niger Health Organizations**
In collaboration with civil society organizations, a delegation of 47 specialists provided various health services in Aquie and Tessaoua Hospitals from 8-23 March, 2014. The hospital staff also attended surgeries for educational purposes in Turkey.

| Education            | Urologists, general surgeons and anesthesia technicians in the Baladi Health Centre and Hopital Generale De Reference Nationale were given training, including related to circumcision operations.

Niger Cataract Project

Under the Africa Cataract Project conducted in partnership with civil society organizations, an Eye Centre was established at the Lamorde Hospital in Niger with the collaboration of the Islamic Development Bank and the Niger Ministry of Health. The Eye Centre, which was constructed on an area of 400 square meters, has two units. The first unit has been operated by International Humanitarian Relief (IHH) for five years whereas the second unit, the Eye Health Unit is run by Lamorde Hospital. TIKA provided the necessary consumables for the project. In relation with the Project, TIKA also commissioned health personnel to visit various areas of Niger.

Health Screening for Zanzibar Island

Upon request from the Zanzibar Ministry of Health and with the collaboration of the Golden Ratio Association, an expert delegation conducted health screenings in Zanzibar in Tanzania from 5-10 September, 2014.

Stereology and Neuroscience Symposium

The Stereology and Neuroscience Symposium was held in Tanzania from 23-27 June with the collaboration of the Ondokuz Mayis University Medical School Department of Histology and Embryology, the Turkish Stereology Association and the Tanzania Sokoine Agricultural University. People from various countries were assisted in attending the symposium which was held in Morogoro province.

Niger Cataract Project

Cataract surgery was performed on many patients in Niger.
Sarı Saltuk Romania Gathering
The third Sarı Saltuk Gathering, which has been held each year since 2012 with the purpose of spreading awareness of Sarı Saltuk and promoting his unifying message, was held in Romania in 2014. Members of the Department of Religious Affairs, the Cem Foundation and the Federation of Alawite Foundations, civil society representatives, Bektashi Fathers from the Balkans, Alawite-Bektashi Fathers and Grandfathers and academics studying the subject attended the gathering.

100th anniversary of Ismail Gaspirali (Gasprinsky)’s Death Symposium
With collaboration between civil society organizations, Kyrgyzstan-Turkey Manas University and TIKA, Gaspirali Ismail Bey, who is one of the most important historical figures in Turkish history, was commemorated at a symposium entitled, “Where are We All in Language, in Ideas, in Work at the 100th Anniversary of His Death”. TIKA assisted academics to attend the symposium to present papers.

Islamic Mysticism (Tasawwuf) Symposium in Balkans
The Islamic Mysticism (Tasawwuf) Symposium was held in Albania, the Balkans, on 22 May, 2014 in order to strengthen the historical and cultural bonds of our common heritage. TIKA assisted experts in attending the symposium.

Ghana Entrepreneurship Project
Under the Project of Entrepreneurship Training for Future Ahis developed by civil society organizations, a theoretical and practical training program in foundry, automotive, construction and food sectors was held for 22 Ghanaian business people from 8-22 February, 2014.

Yemen Entrepreneurship Training Project
Under the Project of Entrepreneurship Training for Future Ahis developed by civil society organizations, TIKA assisted 22 Yemeni business people to visit Istanbul on a study trip from 13-28 June 2014.
